KINGSPORT
80010

Plan Description

Employees of KINGSPORT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. KINGSPORT has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as KINGSPORT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

KINGSPORT withdrew from TCRS effective July 1, 2012. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

KINGSPORT had previously adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll. As of October 1, 2010, KINGSPORT has elected to discontinue the non-contributory provision for all future hires. This will require all new hires to contribute 5.0 percent of earnable compensation. Employees who were employed prior to October 1, 2010 will continue to be eligible for the noncontributory provision.

KINGSPORT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 17.10% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for KINGSPORT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, KINGSPORT's annual pension cost of $6,335,112 to TCRS was equal to KINGSPORT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. KINGSPORT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 15 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

JOHNSON CITY
80020

Plan Description

Employees of JOHNSON CITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as JOHNSON CITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

JOHNSON CITY withdrew from TCRS effective July 1, 2010. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

JOHNSON CITY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

JOHNSON CITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 19.11% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for JOHNSON CITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, JOHNSON CITY's annual pension cost of $6,980,952 to TCRS was equal to JOHNSON CITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. JOHNSON CITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

JOHNSON CITY POWER BD
80022

Plan Description

Employees of JOHNSON CITY POWER BD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as JOHNSON CITY POWER BD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

JOHNSON CITY POWER BD requires employees to contribute 5.0 percent of earnable compensation.

JOHNSON CITY POWER BD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.87% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for JOHNSON CITY POWER BD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, JOHNSON CITY POWER BD's annual pension cost of $1,536,294 to TCRS was equal to JOHNSON CITY POWER BD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. JOHNSON CITY POWER BD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 11 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BRISTOL
80030

Plan Description

Employees of BRISTOL are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BRISTOL participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BRISTOL had previously adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll. As of October 1, 2011, BRISTOL has elected to discontinue the non-contributory provision for all future hires. This will require all new hires to contribute 5.0 percent of earnable compensation. Employees who were employed prior to October 1, 2011 will continue to be eligible for the noncontributory provision.

BRISTOL is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 17.27% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BRISTOL is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BRISTOL's annual pension cost of $2,719,413 to TCRS was equal to BRISTOL's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BRISTOL's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BRISTOL TENNESSEE ESSENTIAL SERVICE
80032

Plan Description

Employees of BRISTOL TENNESSEE ESSENTIAL SERVICE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BRISTOL TENNESSEE ESSENTIAL SERVICE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BRISTOL TENNESSEE ESSENTIAL SERVICE requires employees to contribute 5.0 percent of earnable compensation.

BRISTOL TENNESSEE ESSENTIAL SERVICE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.01% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BRISTOL TENNESSEE ESSENTIAL SERVICE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BRISTOL TENNESSEE ESSENTIAL SERVICE's annual pension cost of $566,687 to TCRS was equal to BRISTOL TENNESSEE ESSENTIAL SERVICE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BRISTOL TENNESSEE ESSENTIAL SERVICE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BRISTOL HOUSING AUTH
80033

Plan Description

Employees of BRISTOL HOUSING AUTH are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BRISTOL HOUSING AUTH participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BRISTOL HOUSING AUTH has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

BRISTOL HOUSING AUTH is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.31% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BRISTOL HOUSING AUTH is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BRISTOL HOUSING AUTH's annual pension cost of $77,318 to TCRS was equal to BRISTOL HOUSING AUTH's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BRISTOL HOUSING AUTH's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 15 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BRISTOL HOUSING AUTH 80033

GREENEVILLE, TOWN OF
80040

Plan Description

Employees of GREENEVILLE, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GREENEVILLE, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GREENEVILLE, TOWN OF has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

GREENEVILLE, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.20% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GREENEVILLE, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GREENEVILLE, TOWN OF's annual pension cost of $1,882,472 to TCRS was equal to GREENEVILLE, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GREENEVILLE, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TENNESSEE CO SERVICE
80050

Plan Description

Employees of TENNESSEE CO SERVICE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENNESSEE CO SERVICE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENNESSEE CO SERVICE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TENNESSEE CO SERVICE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENNESSEE CO SERVICE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENNESSEE CO SERVICE's annual pension cost of $0 to TCRS was equal to TENNESSEE CO SERVICE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENNESSEE CO SERVICE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TENNESSEE CO COMMISSIONERS ASN
80052

Plan Description

Employees of TENNESSEE CO COMMISSIONERS ASN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENNESSEE CO COMMISSIONERS ASN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENNESSEE CO COMMISSIONERS ASN has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TENNESSEE CO COMMISSIONERS ASN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.90% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENNESSEE CO COMMISSIONERS ASN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENNESSEE CO COMMISSIONERS ASN's annual pension cost of $13,094 to TCRS was equal to TENNESSEE CO COMMISSIONERS ASN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENNESSEE CO COMMISSIONERS ASN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TENNESSEE STATE EMPLOYEES ASSOCIATION
80056

Plan Description

Employees of TENNESSEE STATE EMPLOYEES ASSOCIATION are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENNESSEE STATE EMPLOYEES ASSOCIATION participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENNESSEE STATE EMPLOYEES ASSOCIATION requires employees to contribute 5.0 percent of earnable compensation.

TENNESSEE STATE EMPLOYEES ASSOCIATION is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.61% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENNESSEE STATE EMPLOYEES ASSOCIATION is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENNESSEE STATE EMPLOYEES ASSOCIATION's annual pension cost of $117,568 to TCRS was equal to TENNESSEE STATE EMPLOYEES ASSOCIATION's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENNESSEE STATE EMPLOYEES ASSOCIATION's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

OAK RIDGE
80060

Plan Description

Employees of OAK RIDGE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as OAK RIDGE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

OAK RIDGE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

OAK RIDGE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.87% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for OAK RIDGE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, OAK RIDGE's annual pension cost of $2,721,830 to TCRS was equal to OAK RIDGE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. OAK RIDGE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 11 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

OAK RIDGE UTILITY DIST
80061

Plan Description

Employees of OAK RIDGE UTILITY DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as OAK RIDGE UTILITY DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

OAK RIDGE UTILITY DIST has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

OAK RIDGE UTILITY DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.84% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for OAK RIDGE UTILITY DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, OAK RIDGE UTILITY DIST's annual pension cost of $118,806 to TCRS was equal to OAK RIDGE UTILITY DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. OAK RIDGE UTILITY DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

OAK RIDGE SCHOOLS
80062

Plan Description

Employees of OAK RIDGE SCHOOLS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as OAK RIDGE SCHOOLS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

OAK RIDGE SCHOOLS requires employees to contribute 5.0 percent of earnable compensation.

OAK RIDGE SCHOOLS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.18% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for OAK RIDGE SCHOOLS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, OAK RIDGE SCHOOLS's annual pension cost of $624,635 to TCRS was equal to OAK RIDGE SCHOOLS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. OAK RIDGE SCHOOLS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$624,635	100.00%	$0.00
June 30, 2012	$662,054	100.00%	$0.00
June 30, 2011	$655,080	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 98.74 percent funded. The actuarial accrued liability for benefits was 23.25 million, and the actuarial value of assets was $22.96 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.29 million. The covered payroll (annual payroll of active employees covered by the plan) $6.24 million, and the ratio of the UAAL to the covered payroll was 4.70 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

MORRISTOWN
80070

Plan Description

Employees of MORRISTOWN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MORRISTOWN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MORRISTOWN requires employees to contribute 5.0 percent of earnable compensation.

MORRISTOWN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.68% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MORRISTOWN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MORRISTOWN's annual pension cost of $1,912,033 to TCRS was equal to MORRISTOWN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MORRISTOWN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 14 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MORRISTOWN HOUSING AUTH
80073

Plan Description

Employees of MORRISTOWN HOUSING AUTH are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MORRISTOWN HOUSING AUTH participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MORRISTOWN HOUSING AUTH has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MORRISTOWN HOUSING AUTH is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 17.65% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MORRISTOWN HOUSING AUTH is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MORRISTOWN HOUSING AUTH's annual pension cost of $176,086 to TCRS was equal to MORRISTOWN HOUSING AUTH's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MORRISTOWN HOUSING AUTH's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

NORRIS
80080

Plan Description

Employees of NORRIS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as NORRIS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

NORRIS requires employees to contribute 5.0 percent of earnable compensation.

NORRIS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.31% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for NORRIS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, NORRIS's annual pension cost of $72,646 to TCRS was equal to NORRIS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. NORRIS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BROWNSVILLE
80090

Plan Description

Employees of BROWNSVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BROWNSVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BROWNSVILLE requires employees to contribute 5.0 percent of earnable compensation.

BROWNSVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.98% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BROWNSVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BROWNSVILLE's annual pension cost of $229,267 to TCRS was equal to BROWNSVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BROWNSVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 20 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

JONESBOROUGH
80110

Plan Description

Employees of JONESBOROUGH are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as JONESBOROUGH participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

JONESBOROUGH requires employees to contribute 5.0 percent of earnable compensation.

JONESBOROUGH is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.32% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for JONESBOROUGH is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, JONESBOROUGH's annual pension cost of $308,281 to TCRS was equal to JONESBOROUGH's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. JONESBOROUGH's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ROGERSVILLE HOUS AUTH
80120

Plan Description

Employees of ROGERSVILLE HOUS AUTH are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ROGERSVILLE HOUS AUTH participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

ROGERSVILLE HOUS AUTH withdrew from TCRS effective July 1, 1991. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ROGERSVILLE HOUS AUTH requires employees to contribute 5.0 percent of earnable compensation.

ROGERSVILLE HOUS AUTH is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ROGERSVILLE HOUS AUTH is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ROGERSVILLE HOUS AUTH's annual pension cost of $0 to TCRS was equal to ROGERSVILLE HOUS AUTH's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ROGERSVILLE HOUS AUTH's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CLINTON
80140

Plan Description

Employees of CLINTON are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CLINTON participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CLINTON requires employees to contribute 5.0 percent of earnable compensation.

CLINTON is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.29% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CLINTON is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CLINTON's annual pension cost of $535,420 to TCRS was equal to CLINTON's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CLINTON's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MARYVILLE
80150

Plan Description

Employees of MARYVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MARYVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MARYVILLE requires employees to contribute 5.0 percent of earnable compensation.

MARYVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.54% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MARYVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MARYVILLE's annual pension cost of $2,164,435 to TCRS was equal to MARYVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MARYVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MONTGOMERY CO GEN FUND
80162

Plan Description

Employees of MONTGOMERY CO GEN FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MONTGOMERY CO GEN FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MONTGOMERY CO GEN FUND has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MONTGOMERY CO GEN FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.33% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MONTGOMERY CO GEN FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MONTGOMERY CO GEN FUND's annual pension cost of $9,197,180 to TCRS was equal to MONTGOMERY CO GEN FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MONTGOMERY CO GEN FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$9,197,180	100.00%	$0.00
June 30, 2012	$9,113,022	100.00%	$0.00
June 30, 2011	$8,861,226	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 97.27 percent funded. The actuarial accrued liability for benefits was 160.00 million, and the actuarial value of assets was $155.63 million, resulting in an unfunded actuarial accrued liability (UAAL) of $4.38 million. The covered payroll (annual payroll of active employees covered by the plan) $59.75 million, and the ratio of the UAAL to the covered payroll was 7.32 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

FAYETTEVILLE
80170

Plan Description

Employees of FAYETTEVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FAYETTEVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FAYETTEVILLE requires employees to contribute 5.0 percent of earnable compensation.

FAYETTEVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.87% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FAYETTEVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FAYETTEVILLE's annual pension cost of $473,851 to TCRS was equal to FAYETTEVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FAYETTEVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CUMBERLAND COUNTY GENERAL FUND
80190

Plan Description

Employees of CUMBERLAND COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CUMBERLAND COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CUMBERLAND COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

CUMBERLAND COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.56% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CUMBERLAND COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CUMBERLAND COUNTY GENERAL FUND's annual pension cost of $1,663,948 to TCRS was equal to CUMBERLAND COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CUMBERLAND COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TELLICO PLAINS
80200

Plan Description

Employees of TELLICO PLAINS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TELLICO PLAINS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TELLICO PLAINS requires employees to contribute 5.0 percent of earnable compensation.

TELLICO PLAINS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TELLICO PLAINS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TELLICO PLAINS's annual pension cost of $0 to TCRS was equal to TELLICO PLAINS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TELLICO PLAINS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CLARKSVILLE MEM HOSP
80210

Plan Description

Employees of CLARKSVILLE MEM HOSP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CLARKSVILLE MEM HOSP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

CLARKSVILLE MEM HOSP withdrew from TCRS effective April 1, 1997 because the entity was no longer eligible to participate in TCRS. Employees at the date of withdrawal will not accrue salary or service credit in TCRS after the date of withdrawal. The employer will continue to be responsible for the pension liability related to the affected employees and retirees for service accrued up to the date of withdrawal.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CLARKSVILLE MEM HOSP has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

CLARKSVILLE MEM HOSP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CLARKSVILLE MEM HOSP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CLARKSVILLE MEM HOSP's annual pension cost of $0 to TCRS was equal to CLARKSVILLE MEM HOSP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CLARKSVILLE MEM HOSP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

PARIS GENERAL EMPLOYEES
80230

Plan Description

Employees of PARIS GENERAL EMPLOYEES are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as PARIS GENERAL EMPLOYEES participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

PARIS GENERAL EMPLOYEES requires employees to contribute 5.0 percent of earnable compensation.

PARIS GENERAL EMPLOYEES is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.81% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for PARIS GENERAL EMPLOYEES is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, PARIS GENERAL EMPLOYEES's annual pension cost of $495,775 to TCRS was equal to PARIS GENERAL EMPLOYEES's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. PARIS GENERAL EMPLOYEES's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 13 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WAVERLY
80260

Plan Description

Employees of WAVERLY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WAVERLY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WAVERLY requires employees to contribute 5.0 percent of earnable compensation.

WAVERLY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.79% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WAVERLY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WAVERLY's annual pension cost of $12,985 to TCRS was equal to WAVERLY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WAVERLY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HENRY CO CRTHOUSE EMP
80290

Plan Description

Employees of HENRY CO CRTHOUSE EMP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HENRY CO CRTHOUSE EMP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HENRY CO CRTHOUSE EMP requires employees to contribute 5.0 percent of earnable compensation.

HENRY CO CRTHOUSE EMP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.68% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HENRY CO CRTHOUSE EMP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HENRY CO CRTHOUSE EMP's annual pension cost of $2,469,934 to TCRS was equal to HENRY CO CRTHOUSE EMP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HENRY CO CRTHOUSE EMP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SEQUATCHIE CO COURTHOUSE
80302

Plan Description

Employees of SEQUATCHIE CO COURTHOUSE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SEQUATCHIE CO COURTHOUSE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SEQUATCHIE CO COURTHOUSE requires employees to contribute 5.0 percent of earnable compensation.

SEQUATCHIE CO COURTHOUSE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.25% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SEQUATCHIE CO COURTHOUSE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SEQUATCHIE CO COURTHOUSE's annual pension cost of $465,093 to TCRS was equal to SEQUATCHIE CO COURTHOUSE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SEQUATCHIE CO COURTHOUSE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MCMINNVILLE
80320

Plan Description

Employees of MCMINNVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MCMINNVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MCMINNVILLE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MCMINNVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.36% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MCMINNVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MCMINNVILLE's annual pension cost of $916,525 to TCRS was equal to MCMINNVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MCMINNVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MILLINGTON
80330

Plan Description

Employees of MILLINGTON are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MILLINGTON participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MILLINGTON has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MILLINGTON is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.07% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MILLINGTON is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MILLINGTON's annual pension cost of $551,312 to TCRS was equal to MILLINGTON's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MILLINGTON's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MILLINGTON 80330

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$551,312	100.00%	$0.00
June 30, 2012	$814,888	100.00%	$0.00
June 30, 2011	$767,536	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 99.84 percent funded. The actuarial accrued liability for benefits was 18.74 million, and the actuarial value of assets was $18.71 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.03 million. The covered payroll (annual payroll of active employees covered by the plan) $6.34 million, and the ratio of the UAAL to the covered payroll was 0.46 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

GIBSON CO BD OF EDUCATION
80340

Plan Description

Employees of GIBSON CO BD OF EDUCATION are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GIBSON CO BD OF EDUCATION participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GIBSON CO BD OF EDUCATION requires employees to contribute 5.0 percent of earnable compensation.

GIBSON CO BD OF EDUCATION is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GIBSON CO BD OF EDUCATION is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GIBSON CO BD OF EDUCATION's annual pension cost of $110,100 to TCRS was equal to GIBSON CO BD OF EDUCATION's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GIBSON CO BD OF EDUCATION's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

RUTHERFORD COUNTY
80420

Plan Description

Employees of RUTHERFORD COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as RUTHERFORD COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

RUTHERFORD COUNTY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

RUTHERFORD COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.69% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for RUTHERFORD COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, RUTHERFORD COUNTY's annual pension cost of $9,888,217 to TCRS was equal to RUTHERFORD COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. RUTHERFORD COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

RUTHERFORD COUNTY 80420

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$9,888,217	100.00%	$0.00
June 30, 2012	$9,590,022	100.00%	$0.00
June 30, 2011	$9,346,375	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 96.54 percent funded. The actuarial accrued liability for benefits was 164.05 million, and the actuarial value of assets was $158.38 million, resulting in an unfunded actuarial accrued liability (UAAL) of $5.67 million. The covered payroll (annual payroll of active employees covered by the plan) $71.49 million, and the ratio of the UAAL to the covered payroll was 7.93 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

HARTSVILLE/TROUSDALE COUNTY
80431

Plan Description

Employees of HARTSVILLE/TROUSDALE COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HARTSVILLE/TROUSDALE COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HARTSVILLE/TROUSDALE COUNTY requires employees to contribute 5.0 percent of earnable compensation.

HARTSVILLE/TROUSDALE COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.07% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HARTSVILLE/TROUSDALE COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HARTSVILLE/TROUSDALE COUNTY's annual pension cost of $321,465 to TCRS was equal to HARTSVILLE/TROUSDALE COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HARTSVILLE/TROUSDALE COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

UNION CITY
80440

Plan Description

Employees of UNION CITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as UNION CITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

UNION CITY requires employees to contribute 5.0 percent of earnable compensation.

UNION CITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.78% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for UNION CITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, UNION CITY's annual pension cost of $523,198 to TCRS was equal to UNION CITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. UNION CITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SPRINGFIELD
80480

Plan Description

Employees of SPRINGFIELD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SPRINGFIELD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SPRINGFIELD has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SPRINGFIELD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.26% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SPRINGFIELD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SPRINGFIELD's annual pension cost of $1,251,447 to TCRS was equal to SPRINGFIELD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SPRINGFIELD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HARTSVILLE/TROUSDALE COUNTY
80500

Plan Description

Employees of HARTSVILLE/TROUSDALE COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HARTSVILLE/TROUSDALE COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HARTSVILLE/TROUSDALE COUNTY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HARTSVILLE/TROUSDALE COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 20.12% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HARTSVILLE/TROUSDALE COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HARTSVILLE/TROUSDALE COUNTY's annual pension cost of $163,874 to TCRS was equal to HARTSVILLE/TROUSDALE COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HARTSVILLE/TROUSDALE COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HARTSVILLE/TROUSDALE COUNTY 80500

WEST KNOX UTILITY DISTRICT
80510

Plan Description

Employees of WEST KNOX UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WEST KNOX UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

WEST KNOX UTILITY DISTRICT withdrew from TCRS effective July 1, 1991. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WEST KNOX UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

WEST KNOX UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WEST KNOX UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WEST KNOX UTILITY DISTRICT's annual pension cost of $0 to TCRS was equal to WEST KNOX UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WEST KNOX UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LINEBAUGH PUB LIB
80570

Plan Description

Employees of LINEBAUGH PUB LIB are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LINEBAUGH PUB LIB participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LINEBAUGH PUB LIB requires employees to contribute 5.0 percent of earnable compensation.

LINEBAUGH PUB LIB is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.05% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LINEBAUGH PUB LIB is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LINEBAUGH PUB LIB's annual pension cost of $76,817 to TCRS was equal to LINEBAUGH PUB LIB's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LINEBAUGH PUB LIB's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

JACKSON COUNTY GENERAL FUND
80591

Plan Description

Employees of JACKSON COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as JACKSON COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

JACKSON COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

JACKSON COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.12% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for JACKSON COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, JACKSON COUNTY GENERAL FUND's annual pension cost of $286,900 to TCRS was equal to JACKSON COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. JACKSON COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HUMPHREYS CO NURSING HOME
80670

Plan Description

Employees of HUMPHREYS CO NURSING HOME are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HUMPHREYS CO NURSING HOME participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

HUMPHREYS CO NURSING HOME withdrew from TCRS effective May 31, 1989 because the entity was no longer eligible to participate in TCRS. Employees at the date of withdrawal will not accrue salary or service credit in TCRS after the date of withdrawal. The employer will continue to be responsible for the pension liability related to the affected employees and retirees for service accrued up to the date of withdrawal.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HUMPHREYS CO NURSING HOME requires employees to contribute 5.0 percent of earnable compensation.

HUMPHREYS CO NURSING HOME is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HUMPHREYS CO NURSING HOME is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HUMPHREYS CO NURSING HOME's annual pension cost of $0 to TCRS was equal to HUMPHREYS CO NURSING HOME's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HUMPHREYS CO NURSING HOME's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CLAY COUNTY GENERAL FUND
80682

Plan Description

Employees of CLAY COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CLAY COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CLAY COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

CLAY COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.22% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CLAY COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CLAY COUNTY GENERAL FUND's annual pension cost of $242,481 to TCRS was equal to CLAY COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CLAY COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LAFAYETTE
80740

Plan Description

Employees of LAFAYETTE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LAFAYETTE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LAFAYETTE requires employees to contribute 5.0 percent of earnable compensation.

LAFAYETTE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.53% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LAFAYETTE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LAFAYETTE's annual pension cost of $147,525 to TCRS was equal to LAFAYETTE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LAFAYETTE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BEDFORD CO COURTHOUSE EMP
80760

Plan Description

Employees of BEDFORD CO COURTHOUSE EMP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BEDFORD CO COURTHOUSE EMP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BEDFORD CO COURTHOUSE EMP requires employees to contribute 5.0 percent of earnable compensation.

BEDFORD CO COURTHOUSE EMP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.96% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BEDFORD CO COURTHOUSE EMP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BEDFORD CO COURTHOUSE EMP's annual pension cost of $953,404 to TCRS was equal to BEDFORD CO COURTHOUSE EMP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BEDFORD CO COURTHOUSE EMP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HENDERSON, CITY OF
80770

Plan Description

Employees of HENDERSON, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HENDERSON, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HENDERSON, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

HENDERSON, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.20% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HENDERSON, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HENDERSON, CITY OF's annual pension cost of $270,780 to TCRS was equal to HENDERSON, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HENDERSON, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 10 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SMYRNA RUTHERFORD CO AIRPORT AUTHORITY
80790

Plan Description

Employees of SMYRNA RUTHERFORD CO AIRPORT AUTHORITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SMYRNA RUTHERFORD CO AIRPORT AUTHORITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SMYRNA RUTHERFORD CO AIRPORT AUTHORITY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SMYRNA RUTHERFORD CO AIRPORT AUTHORITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 16.57% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SMYRNA RUTHERFORD CO AIRPORT AUTHORITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SMYRNA RUTHERFORD CO AIRPORT AUTHORITY's annual pension cost of $68,593 to TCRS was equal to SMYRNA RUTHERFORD CO AIRPORT AUTHORITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SMYRNA RUTHERFORD CO AIRPORT AUTHORITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ASHLAND CITY
80800

Plan Description

Employees of ASHLAND CITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ASHLAND CITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ASHLAND CITY requires employees to contribute 5.0 percent of earnable compensation.

ASHLAND CITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.70% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ASHLAND CITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ASHLAND CITY's annual pension cost of $148,598 to TCRS was equal to ASHLAND CITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ASHLAND CITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SULLIVAN COUNTY
80820

Plan Description

Employees of SULLIVAN COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SULLIVAN COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SULLIVAN COUNTY had previously adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll. As of April 1, 2012, SULLIVAN COUNTY has elected to discontinue the non-contributory provision for all future hires. This will require all new hires to contribute 5.0 percent of earnable compensation. Employees who were employed prior to April 1, 2012 will continue to be eligible for the noncontributory provision.

SULLIVAN COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SULLIVAN COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SULLIVAN COUNTY's annual pension cost of $5,174,797 to TCRS was equal to SULLIVAN COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SULLIVAN COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LOUDON
80850

Plan Description

Employees of LOUDON are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. LOUDON has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LOUDON participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LOUDON has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

LOUDON is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 18.13% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LOUDON is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LOUDON's annual pension cost of $454,314 to TCRS was equal to LOUDON's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LOUDON's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

PUTNAM COUNTY GENERAL FUND
80863

Plan Description

Employees of PUTNAM COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as PUTNAM COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

PUTNAM COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

PUTNAM COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.23% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for PUTNAM COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, PUTNAM COUNTY GENERAL FUND's annual pension cost of $2,648,883 to TCRS was equal to PUTNAM COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. PUTNAM COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HUMBOLDT
80870

Plan Description

Employees of HUMBOLDT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HUMBOLDT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HUMBOLDT requires employees to contribute 5.0 percent of earnable compensation.

HUMBOLDT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.72% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HUMBOLDT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HUMBOLDT's annual pension cost of $421,183 to TCRS was equal to HUMBOLDT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HUMBOLDT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LAKEWOOD
80910

Plan Description

Employees of LAKEWOOD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LAKEWOOD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

LAKEWOOD withdrew from TCRS effective June 1, 2011 because the entity was no longer eligible to participate in TCRS. Employees at the date of withdrawal will not accrue salary or service credit in TCRS after the date of withdrawal. The employer will continue to be responsible for the pension liability related to the affected employees and retirees for service accrued up to the date of withdrawal.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LAKEWOOD requires employees to contribute 5.0 percent of earnable compensation.

LAKEWOOD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LAKEWOOD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LAKEWOOD's annual pension cost of $0 to TCRS was equal to LAKEWOOD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LAKEWOOD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CLEVELAND CITY
80970

Plan Description

Employees of CLEVELAND CITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. CLEVELAND CITY has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CLEVELAND CITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CLEVELAND CITY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

CLEVELAND CITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 17.71% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CLEVELAND CITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CLEVELAND CITY's annual pension cost of $4,912,561 to TCRS was equal to CLEVELAND CITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CLEVELAND CITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 12 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CLEVELAND CITY 80970

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$4,912,561	100.00%	$0.00
June 30, 2012	$4,974,186	100.00%	$0.00
June 30, 2011	$4,782,285	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 80.89 percent funded. The actuarial accrued liability for benefits was 102.37 million, and the actuarial value of assets was $82.81 million, resulting in an unfunded actuarial accrued liability (UAAL) of $19.56 million. The covered payroll (annual payroll of active employees covered by the plan) $26.73 million, and the ratio of the UAAL to the covered payroll was 73.18 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

PORTLAND
81020

Plan Description

Employees of PORTLAND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as PORTLAND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

PORTLAND requires employees to contribute 5.0 percent of earnable compensation.

PORTLAND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.38% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for PORTLAND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, PORTLAND's annual pension cost of $465,414 to TCRS was equal to PORTLAND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. PORTLAND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SOMERVILLE
81080

Plan Description

Employees of SOMERVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SOMERVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SOMERVILLE requires employees to contribute 5.0 percent of earnable compensation.

SOMERVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.38% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SOMERVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SOMERVILLE's annual pension cost of $114,826 to TCRS was equal to SOMERVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SOMERVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SOMERVILLE 81080

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$114,826	100.00%	$0.00
June 30, 2012	$142,283	100.00%	$0.00
June 30, 2011	$136,405	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 97.48 percent funded. The actuarial accrued liability for benefits was 5.58 million, and the actuarial value of assets was $5.44 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.14 million. The covered payroll (annual payroll of active employees covered by the plan) $1.44 million, and the ratio of the UAAL to the covered payroll was 9.75 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

Plan Description

Employees of COCKE COUNTY PARTNERSHIP, INC. are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as COCKE COUNTY PARTNERSHIP, INC. participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

COCKE COUNTY PARTNERSHIP, INC. requires employees to contribute 5.0 percent of earnable compensation.

COCKE COUNTY PARTNERSHIP, INC. is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.56% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for COCKE COUNTY PARTNERSHIP, INC. is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, COCKE COUNTY PARTNERSHIP, INC.'s annual pension cost of $23,286 to TCRS was equal to COCKE COUNTY PARTNERSHIP, INC.'s required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. COCKE COUNTY PARTNERSHIP, INC.'s unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

COCKE COUNTY PARTNERSHIP, INC. 81140

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$23,286	100.00%	$0.00
June 30, 2012	$23,570	100.00%	$0.00
June 30, 2011	$24,588	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 83.68 percent funded. The actuarial accrued liability for benefits was 0.18 million, and the actuarial value of assets was $0.15 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.03 million. The covered payroll (annual payroll of active employees covered by the plan) $0.17 million, and the ratio of the UAAL to the covered payroll was 16.93 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

81190

Plan Description

Employees of SOUTH CENTRAL TN WORKFORCE BD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SOUTH CENTRAL TN WORKFORCE BD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SOUTH CENTRAL TN WORKFORCE BD has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SOUTH CENTRAL TN WORKFORCE BD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.53% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SOUTH CENTRAL TN WORKFORCE BD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SOUTH CENTRAL TN WORKFORCE BD's annual pension cost of $351,226 to TCRS was equal to SOUTH CENTRAL TN WORKFORCE BD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SOUTH CENTRAL TN WORKFORCE BD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MC KENZIE
81200

Plan Description

Employees of MC KENZIE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MC KENZIE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MC KENZIE requires employees to contribute 5.0 percent of earnable compensation.

MC KENZIE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.49% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MC KENZIE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MC KENZIE's annual pension cost of $85,671 to TCRS was equal to MC KENZIE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MC KENZIE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 13 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Political subdivisions such as BRIGHTON participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BRIGHTON requires employees to contribute 5.0 percent of earnable compensation.

BRIGHTON is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 4.94% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BRIGHTON is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BRIGHTON's annual pension cost of $24,737 to TCRS was equal to BRIGHTON's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BRIGHTON's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GRAINGER CO ECD 911
81250

Plan Description

Employees of GRAINGER CO ECD 911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GRAINGER CO ECD 911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GRAINGER CO ECD 911 requires employees to contribute 5.0 percent of earnable compensation.

GRAINGER CO ECD 911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 3.35% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GRAINGER CO ECD 911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GRAINGER CO ECD 911's annual pension cost of $8,223 to TCRS was equal to GRAINGER CO ECD 911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GRAINGER CO ECD 911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 10 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MOSHEIM
81260

Plan Description

Employees of MOSHEIM are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MOSHEIM participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MOSHEIM requires employees to contribute 5.0 percent of earnable compensation.

MOSHEIM is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.86% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MOSHEIM is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MOSHEIM's annual pension cost of $15,376 to TCRS was equal to MOSHEIM's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MOSHEIM's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

PLATEAU UTILITY DISTRICT
81290

Plan Description

Employees of PLATEAU UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as PLATEAU UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

PLATEAU UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

PLATEAU UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.95% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for PLATEAU UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, PLATEAU UTILITY DISTRICT's annual pension cost of $119,226 to TCRS was equal to PLATEAU UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. PLATEAU UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

VAN BUREN COUNTY E 911
81300

Plan Description

Employees of VAN BUREN COUNTY E 911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as VAN BUREN COUNTY E 911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

VAN BUREN COUNTY E 911 requires employees to contribute 5.0 percent of earnable compensation.

VAN BUREN COUNTY E 911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.53% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for VAN BUREN COUNTY E 911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, VAN BUREN COUNTY E 911's annual pension cost of $4,422 to TCRS was equal to VAN BUREN COUNTY E 911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. VAN BUREN COUNTY E 911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 11 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

PEGRAM
81310

Plan Description

Employees of PEGRAM are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as PEGRAM participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

PEGRAM requires employees to contribute 5.0 percent of earnable compensation.

PEGRAM is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.64% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for PEGRAM is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, PEGRAM's annual pension cost of $10,525 to TCRS was equal to PEGRAM's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. PEGRAM's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GOVERNOR'S BOOKS FROM BIRTH FOUNDATION
81320

Plan Description

Employees of GOVERNOR'S BOOKS FROM BIRTH FOUNDATION are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GOVERNOR'S BOOKS FROM BIRTH FOUNDATION participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GOVERNOR'S BOOKS FROM BIRTH FOUNDATION has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

GOVERNOR'S BOOKS FROM BIRTH FOUNDATION is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.99% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GOVERNOR'S BOOKS FROM BIRTH FOUNDATION is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GOVERNOR'S BOOKS FROM BIRTH FOUNDATION's annual pension cost of $27,777 to TCRS was equal to GOVERNOR'S BOOKS FROM BIRTH FOUNDATION's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GOVERNOR'S BOOKS FROM BIRTH FOUNDATION's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LOUDON UTILITIES
81340

Plan Description

Employees of LOUDON UTILITIES are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LOUDON UTILITIES participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LOUDON UTILITIES requires employees to contribute 5.0 percent of earnable compensation.

LOUDON UTILITIES is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.60% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LOUDON UTILITIES is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LOUDON UTILITIES's annual pension cost of $323,614 to TCRS was equal to LOUDON UTILITIES's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LOUDON UTILITIES's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LOUDON UTILITIES 81340

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$323,614	100.00%	$0.00
June 30, 2012	$330,894	100.00%	$0.00
June 30, 2011	$323,411	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 87.21 percent funded. The actuarial accrued liability for benefits was 7.76 million, and the actuarial value of assets was $6.77 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.99 million. The covered payroll (annual payroll of active employees covered by the plan) $3.67 million, and the ratio of the UAAL to the covered payroll was 27.09 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

SURGOINSVILLE, TOWN OF
81350

Plan Description

Employees of SURGOINSVILLE, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SURGOINSVILLE, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SURGOINSVILLE, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

SURGOINSVILLE, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.44% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SURGOINSVILLE, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SURGOINSVILLE, TOWN OF's annual pension cost of $27,535 to TCRS was equal to SURGOINSVILLE, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SURGOINSVILLE, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 12 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SURGOINSVILLE, TOWN OF 81350

RUTHERFORD, TOWN OF
81360

Plan Description

Employees of RUTHERFORD, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as RUTHERFORD, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

RUTHERFORD, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

RUTHERFORD, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 2.50% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for RUTHERFORD, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, RUTHERFORD, TOWN OF's annual pension cost of $1,550 to TCRS was equal to RUTHERFORD, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. RUTHERFORD, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BONDECROFT UTILITY DISTRICT
81390

Plan Description

Employees of BONDECROFT UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BONDECROFT UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BONDECROFT UTILITY DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

BONDECROFT UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.62% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BONDECROFT UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BONDECROFT UTILITY DISTRICT's annual pension cost of $27,381 to TCRS was equal to BONDECROFT UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BONDECROFT UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

June 30, 2011	$32,853	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 84.26 percent funded. The actuarial accrued liability for benefits was 0.29 million, and the actuarial value of assets was $0.24 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.05 million. The covered payroll (annual payroll of active employees covered by the plan) $0.24 million, and the ratio of the UAAL to the covered payroll was 18.56 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

WEST OVERTON UTILITY DISTRICT
81400

Plan Description

Employees of WEST OVERTON UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WEST OVERTON UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WEST OVERTON UTILITY DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WEST OVERTON UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 23.21% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WEST OVERTON UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WEST OVERTON UTILITY DISTRICT's annual pension cost of $36,033 to TCRS was equal to WEST OVERTON UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WEST OVERTON UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CITIZEN'S GAS UTILITY DISTRICT
81410

Plan Description

Employees of CITIZEN'S GAS UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CITIZEN'S GAS UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CITIZEN'S GAS UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

CITIZEN'S GAS UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.08% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CITIZEN'S GAS UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CITIZEN'S GAS UTILITY DISTRICT's annual pension cost of $127,910 to TCRS was equal to CITIZEN'S GAS UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CITIZEN'S GAS UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SIAM UTILITY DISTRICT
81420

Plan Description

Employees of SIAM UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SIAM UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SIAM UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

SIAM UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.02% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SIAM UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SIAM UTILITY DISTRICT's annual pension cost of $10,012 to TCRS was equal to SIAM UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SIAM UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 11 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DECATUR, TOWN OF
81450

Plan Description

Employees of DECATUR, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DECATUR, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DECATUR, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

DECATUR, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 4.58% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DECATUR, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DECATUR, TOWN OF's annual pension cost of $30,321 to TCRS was equal to DECATUR, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DECATUR, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DEKALB COUNTY ECD
81500

Plan Description

Employees of DEKALB COUNTY ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DEKALB COUNTY ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DEKALB COUNTY ECD requires employees to contribute 5.0 percent of earnable compensation.

DEKALB COUNTY ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 4.79% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DEKALB COUNTY ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DEKALB COUNTY ECD's annual pension cost of $15,652 to TCRS was equal to DEKALB COUNTY ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DEKALB COUNTY ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 17 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DEWHITE UTILITY DISTRICT
81550

Plan Description

Employees of DEWHITE UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DEWHITE UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DEWHITE UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

DEWHITE UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.32% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DEWHITE UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DEWHITE UTILITY DISTRICT's annual pension cost of $23,340 to TCRS was equal to DEWHITE UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DEWHITE UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DEWHITE UTILITY DISTRICT 81550

EAST MONTGOMERY UTILITY
81560

Plan Description

Employees of EAST MONTGOMERY UTILITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as EAST MONTGOMERY UTILITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

EAST MONTGOMERY UTILITY requires employees to contribute 5.0 percent of earnable compensation.

EAST MONTGOMERY UTILITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.60% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for EAST MONTGOMERY UTILITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, EAST MONTGOMERY UTILITY's annual pension cost of $19,137 to TCRS was equal to EAST MONTGOMERY UTILITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. EAST MONTGOMERY UTILITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 17 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Funding Policy

PARIS-HENRY COUNTY UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

PARIS-HENRY COUNTY UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.57% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for PARIS-HENRY COUNTY UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, PARIS-HENRY COUNTY UTILITY DISTRICT's annual pension cost of $84,079 to TCRS was equal to PARIS-HENRY COUNTY UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. PARIS-HENRY COUNTY UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

COCKE COUNTY ECD
81610

Plan Description

Employees of COCKE COUNTY ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as COCKE COUNTY ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

COCKE COUNTY ECD requires employees to contribute 5.0 percent of earnable compensation.

COCKE COUNTY ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.64% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for COCKE COUNTY ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, COCKE COUNTY ECD's annual pension cost of $14,152 to TCRS was equal to COCKE COUNTY ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. COCKE COUNTY ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 17 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Funding Policy

OLD GAINESBORO ROAD UD requires employees to contribute 5.0 percent of earnable compensation.

OLD GAINESBORO ROAD UD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 16.34% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for OLD GAINESBORO ROAD UD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, OLD GAINESBORO ROAD UD's annual pension cost of $30,781 to TCRS was equal to OLD GAINESBORO ROAD UD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. OLD GAINESBORO ROAD UD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 19 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MACON COUNTY E911 DISTRICT
81880

Plan Description

Employees of MACON COUNTY E911 DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MACON COUNTY E911 DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MACON COUNTY E911 DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

MACON COUNTY E911 DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.51% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MACON COUNTY E911 DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MACON COUNTY E911 DISTRICT's annual pension cost of $7,200 to TCRS was equal to MACON COUNTY E911 DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MACON COUNTY E911 DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 0 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WATAUGA, CITY OF
81884

Plan Description

Employees of WATAUGA, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WATAUGA, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WATAUGA, CITY OF has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WATAUGA, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.30% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WATAUGA, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WATAUGA, CITY OF's annual pension cost of $2,793 to TCRS was equal to WATAUGA, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WATAUGA, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 0 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WHITE BLUFF, TOWN OF
81885

Plan Description

Employees of WHITE BLUFF, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WHITE BLUFF, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WHITE BLUFF, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

WHITE BLUFF, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 4.96% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WHITE BLUFF, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WHITE BLUFF, TOWN OF's annual pension cost of $18,513 to TCRS was equal to WHITE BLUFF, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WHITE BLUFF, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 0 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

RIPLEY
82040

Plan Description

Employees of RIPLEY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as RIPLEY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

RIPLEY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

RIPLEY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.28% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for RIPLEY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, RIPLEY's annual pension cost of $561,762 to TCRS was equal to RIPLEY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. RIPLEY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CLARKSVILLE MONTG CO LIB
82050

Plan Description

Employees of CLARKSVILLE MONTG CO LIB are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CLARKSVILLE MONTG CO LIB participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CLARKSVILLE MONTG CO LIB has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

CLARKSVILLE MONTG CO LIB is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.70% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CLARKSVILLE MONTG CO LIB is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CLARKSVILLE MONTG CO LIB's annual pension cost of $107,205 to TCRS was equal to CLARKSVILLE MONTG CO LIB's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CLARKSVILLE MONTG CO LIB's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SMITH CO COURTHOUSE EMP
82060

Plan Description

Employees of SMITH CO COURTHOUSE EMP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SMITH CO COURTHOUSE EMP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SMITH CO COURTHOUSE EMP requires employees to contribute 5.0 percent of earnable compensation.

SMITH CO COURTHOUSE EMP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.99% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SMITH CO COURTHOUSE EMP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SMITH CO COURTHOUSE EMP's annual pension cost of $532,002 to TCRS was equal to SMITH CO COURTHOUSE EMP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SMITH CO COURTHOUSE EMP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HARDEMAN CO COURTHOUSE
83050

Plan Description

Employees of HARDEMAN CO COURTHOUSE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HARDEMAN CO COURTHOUSE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HARDEMAN CO COURTHOUSE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HARDEMAN CO COURTHOUSE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.90% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HARDEMAN CO COURTHOUSE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HARDEMAN CO COURTHOUSE's annual pension cost of $761,596 to TCRS was equal to HARDEMAN CO COURTHOUSE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HARDEMAN CO COURTHOUSE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HARDEMAN CO COURTHOUSE 83050

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$761,596	100.00%	$0.00
June 30, 2012	$1,083,512	100.00%	$0.00
June 30, 2011	$1,010,874	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 100.00 percent funded. The actuarial accrued liability for benefits was 23.69 million, and the actuarial value of assets was $23.69 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.00 million. The covered payroll (annual payroll of active employees covered by the plan) $8.28 million, and the ratio of the UAAL to the covered payroll was 0.00 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

BENTON COUNTY GENERAL FUND
83063

Plan Description

Employees of BENTON COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BENTON COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BENTON COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

BENTON COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.80% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BENTON COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BENTON COUNTY GENERAL FUND's annual pension cost of $487,996 to TCRS was equal to BENTON COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BENTON COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TRENTON
83070

Plan Description

Employees of TRENTON are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TRENTON participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TRENTON requires employees to contribute 5.0 percent of earnable compensation.

TRENTON is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.57% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TRENTON is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TRENTON's annual pension cost of $198,711 to TCRS was equal to TRENTON's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TRENTON's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SPENCER
83100

Plan Description

Employees of SPENCER are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SPENCER participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SPENCER requires employees to contribute 5.0 percent of earnable compensation.

SPENCER is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.62% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SPENCER is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SPENCER's annual pension cost of $34,056 to TCRS was equal to SPENCER's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SPENCER's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LEBANON ADMIN
83120

Plan Description

Employees of LEBANON ADMIN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LEBANON ADMIN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LEBANON ADMIN has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

LEBANON ADMIN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.13% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LEBANON ADMIN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LEBANON ADMIN's annual pension cost of $1,735,892 to TCRS was equal to LEBANON ADMIN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LEBANON ADMIN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GOODLETTSVILLE
83140

Plan Description

Employees of GOODLETTSVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GOODLETTSVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GOODLETTSVILLE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

GOODLETTSVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.93% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GOODLETTSVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GOODLETTSVILLE's annual pension cost of $821,234 to TCRS was equal to GOODLETTSVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GOODLETTSVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SPARTA
83150

Plan Description

Employees of SPARTA are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SPARTA participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SPARTA requires employees to contribute 5.0 percent of earnable compensation.

SPARTA is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.58% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SPARTA is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SPARTA's annual pension cost of $378,234 to TCRS was equal to SPARTA's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SPARTA's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

JEFFERSON CITY
83170

Plan Description

Employees of JEFFERSON CITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. JEFFERSON CITY has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as JEFFERSON CITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

JEFFERSON CITY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

JEFFERSON CITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 16.45% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for JEFFERSON CITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, JEFFERSON CITY's annual pension cost of $580,642 to TCRS was equal to JEFFERSON CITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. JEFFERSON CITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CARTER CO COURTHOUSE
83180

Plan Description

Employees of CARTER CO COURTHOUSE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CARTER CO COURTHOUSE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CARTER CO COURTHOUSE had previously adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll. As of January 1, 2010, CARTER CO COURTHOUSE has elected to discontinue the non-contributory provision for all future hires. This will require all new hires to contribute 5.0 percent of earnable compensation. Employees who were employed prior to January 1, 2010 will continue to be eligible for the noncontributory provision.

CARTER CO COURTHOUSE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.12% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CARTER CO COURTHOUSE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CARTER CO COURTHOUSE's annual pension cost of $1,624,320 to TCRS was equal to CARTER CO COURTHOUSE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CARTER CO COURTHOUSE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CARTER COUNTY ECD 911
83186

Plan Description

Employees of CARTER COUNTY ECD 911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CARTER COUNTY ECD 911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CARTER COUNTY ECD 911 has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

CARTER COUNTY ECD 911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.57% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CARTER COUNTY ECD 911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CARTER COUNTY ECD 911's annual pension cost of $61,763 to TCRS was equal to CARTER COUNTY ECD 911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CARTER COUNTY ECD 911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CARTER COUNTY ECD 911 83186

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$61,763	100.00%	$0.00
June 30, 2012	$53,130	100.00%	$0.00
June 30, 2011	$56,829	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 92.38 percent funded. The actuarial accrued liability for benefits was 0.63 million, and the actuarial value of assets was $0.58 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.05 million. The covered payroll (annual payroll of active employees covered by the plan) $0.39 million, and the ratio of the UAAL to the covered payroll was 12.31 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

ONEIDA SPECIAL SCHOOLS
83190

Plan Description

Employees of ONEIDA SPECIAL SCHOOLS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ONEIDA SPECIAL SCHOOLS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ONEIDA SPECIAL SCHOOLS requires employees to contribute 5.0 percent of earnable compensation.

ONEIDA SPECIAL SCHOOLS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.85% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ONEIDA SPECIAL SCHOOLS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ONEIDA SPECIAL SCHOOLS's annual pension cost of $153,537 to TCRS was equal to ONEIDA SPECIAL SCHOOLS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ONEIDA SPECIAL SCHOOLS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MILAN
83200

Plan Description

Employees of MILAN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MILAN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MILAN has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MILAN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.72% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MILAN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MILAN's annual pension cost of $331,408 to TCRS was equal to MILAN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MILAN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BRENTWOOD
83220

Plan Description

Employees of BRENTWOOD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. BRENTWOOD has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BRENTWOOD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BRENTWOOD had previously adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll. As of January 1, 2010, BRENTWOOD has elected to discontinue the non-contributory provision for all future hires. This will require all new hires to contribute 5.0 percent of earnable compensation. Employees who were employed prior to January 1, 2010 will continue to be eligible for the noncontributory provision.

BRENTWOOD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 16.88% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BRENTWOOD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BRENTWOOD's annual pension cost of $2,210,115 to TCRS was equal to BRENTWOOD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BRENTWOOD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LEWIS CO BD OF ED
83240

Plan Description

Employees of LEWIS CO BD OF ED are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LEWIS CO BD OF ED participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LEWIS CO BD OF ED requires employees to contribute 5.0 percent of earnable compensation.

LEWIS CO BD OF ED is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.91% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LEWIS CO BD OF ED is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LEWIS CO BD OF ED's annual pension cost of $182,006 to TCRS was equal to LEWIS CO BD OF ED's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LEWIS CO BD OF ED's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LEWIS CO BD OF ED 83240

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$182,006	100.00%	$0.00
June 30, 2012	$184,429	100.00%	$0.00
June 30, 2011	$185,750	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 91.64 percent funded. The actuarial accrued liability for benefits was 4.69 million, and the actuarial value of assets was $4.30 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.39 million. The covered payroll (annual payroll of active employees covered by the plan) $1.67 million, and the ratio of the UAAL to the covered payroll was 23.45 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

OLD HICKORY UTILITY DISTRICT
83260

Plan Description

Employees of OLD HICKORY UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as OLD HICKORY UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

OLD HICKORY UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

OLD HICKORY UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.83% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for OLD HICKORY UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, OLD HICKORY UTILITY DISTRICT's annual pension cost of $2,794 to TCRS was equal to OLD HICKORY UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. OLD HICKORY UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FOREST HILLS
83280

Plan Description

Employees of FOREST HILLS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FOREST HILLS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

FOREST HILLS withdrew from TCRS effective July 1, 2010. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FOREST HILLS requires employees to contribute 5.0 percent of earnable compensation.

FOREST HILLS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.54% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FOREST HILLS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FOREST HILLS's annual pension cost of $16,319 to TCRS was equal to FOREST HILLS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FOREST HILLS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HAYWOOD CO COURTHOUSE EMP
83290

Plan Description

Employees of HAYWOOD CO COURTHOUSE EMP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HAYWOOD CO COURTHOUSE EMP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HAYWOOD CO COURTHOUSE EMP has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HAYWOOD CO COURTHOUSE EMP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HAYWOOD CO COURTHOUSE EMP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HAYWOOD CO COURTHOUSE EMP's annual pension cost of $1,111,708 to TCRS was equal to HAYWOOD CO COURTHOUSE EMP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HAYWOOD CO COURTHOUSE EMP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LOUDON CO EMP
83300

Plan Description

Employees of LOUDON CO EMP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. LOUDON CO EMP has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LOUDON CO EMP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LOUDON CO EMP requires employees to contribute 5.0 percent of earnable compensation.

LOUDON CO EMP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.33% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LOUDON CO EMP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LOUDON CO EMP's annual pension cost of $1,116,116 to TCRS was equal to LOUDON CO EMP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LOUDON CO EMP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ROBERTSON CO GOVERNMENT
83320

Plan Description

Employees of ROBERTSON CO GOVERNMENT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ROBERTSON CO GOVERNMENT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ROBERTSON CO GOVERNMENT requires employees to contribute 5.0 percent of earnable compensation.

ROBERTSON CO GOVERNMENT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.48% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ROBERTSON CO GOVERNMENT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ROBERTSON CO GOVERNMENT's annual pension cost of $1,479,718 to TCRS was equal to ROBERTSON CO GOVERNMENT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ROBERTSON CO GOVERNMENT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SELMER
83340

Plan Description

Employees of SELMER are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SELMER participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SELMER has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SELMER is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 16.62% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SELMER is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SELMER's annual pension cost of $374,853 to TCRS was equal to SELMER's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SELMER's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CHEATHAM COUNTY
83350

Plan Description

Employees of CHEATHAM COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CHEATHAM COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CHEATHAM COUNTY requires employees to contribute 5.0 percent of earnable compensation.

CHEATHAM COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.74% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CHEATHAM COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CHEATHAM COUNTY's annual pension cost of $738,943 to TCRS was equal to CHEATHAM COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CHEATHAM COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SUMNER COUNTY
83361

Plan Description

Employees of SUMNER COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SUMNER COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SUMNER COUNTY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SUMNER COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.10% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SUMNER COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SUMNER COUNTY's annual pension cost of $6,593,472 to TCRS was equal to SUMNER COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SUMNER COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MCMINN CO GENERAL FUND
83370

Plan Description

Employees of MCMINN CO GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MCMINN CO GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MCMINN CO GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

MCMINN CO GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.07% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MCMINN CO GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MCMINN CO GENERAL FUND's annual pension cost of $743,761 to TCRS was equal to MCMINN CO GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MCMINN CO GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WILSON CO COURTHOUSE EMP
83390

Plan Description

Employees of WILSON CO COURTHOUSE EMP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WILSON CO COURTHOUSE EMP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WILSON CO COURTHOUSE EMP has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WILSON CO COURTHOUSE EMP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.09% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WILSON CO COURTHOUSE EMP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WILSON CO COURTHOUSE EMP's annual pension cost of $4,552,434 to TCRS was equal to WILSON CO COURTHOUSE EMP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WILSON CO COURTHOUSE EMP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MONROE COUNTY ECD
83419

Plan Description

Employees of MONROE COUNTY ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MONROE COUNTY ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MONROE COUNTY ECD requires employees to contribute 5.0 percent of earnable compensation.

MONROE COUNTY ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.61% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MONROE COUNTY ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MONROE COUNTY ECD's annual pension cost of $21,962 to TCRS was equal to MONROE COUNTY ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MONROE COUNTY ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TRI CITIES AIRPORT COMM
83440

Plan Description

Employees of TRI CITIES AIRPORT COMM are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TRI CITIES AIRPORT COMM participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

TRI CITIES AIRPORT COMM withdrew from TCRS effective July 1, 2012. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TRI CITIES AIRPORT COMM has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TRI CITIES AIRPORT COMM is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 17.89% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TRI CITIES AIRPORT COMM is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TRI CITIES AIRPORT COMM's annual pension cost of $341,646 to TCRS was equal to TRI CITIES AIRPORT COMM's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TRI CITIES AIRPORT COMM's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CANNON COUNTY
83470

Plan Description

Employees of CANNON COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CANNON COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CANNON COUNTY requires employees to contribute 5.0 percent of earnable compensation.

CANNON COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.65% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CANNON COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CANNON COUNTY's annual pension cost of $383,402 to TCRS was equal to CANNON COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CANNON COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SCOTT CO GENERAL FUND
83483

Plan Description

Employees of SCOTT CO GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SCOTT CO GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SCOTT CO GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

SCOTT CO GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.83% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SCOTT CO GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SCOTT CO GENERAL FUND's annual pension cost of $590,905 to TCRS was equal to SCOTT CO GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SCOTT CO GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$590,905	100.00%	$0.00
June 30, 2012	$603,924	100.00%	$0.00
June 30, 2011	$563,124	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 90.27 percent funded. The actuarial accrued liability for benefits was 22.92 million, and the actuarial value of assets was $20.69 million, resulting in an unfunded actuarial accrued liability (UAAL) of $2.23 million. The covered payroll (annual payroll of active employees covered by the plan) $7.52 million, and the ratio of the UAAL to the covered payroll was 29.66 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

WASHINGTON CO
83490

Plan Description

Employees of WASHINGTON CO are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WASHINGTON CO participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WASHINGTON CO has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WASHINGTON CO is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.31% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WASHINGTON CO is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WASHINGTON CO's annual pension cost of $3,510,604 to TCRS was equal to WASHINGTON CO's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WASHINGTON CO's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WHITE CO GENERAL FUND
83500

Plan Description

Employees of WHITE CO GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WHITE CO GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WHITE CO GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

WHITE CO GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.93% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WHITE CO GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WHITE CO GENERAL FUND's annual pension cost of $567,759 to TCRS was equal to WHITE CO GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WHITE CO GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BLOUNT CO EMP
83512

Plan Description

Employees of BLOUNT CO EMP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. BLOUNT CO EMP has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BLOUNT CO EMP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BLOUNT CO EMP requires employees to contribute 5.0 percent of earnable compensation.

BLOUNT CO EMP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.14% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BLOUNT CO EMP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BLOUNT CO EMP's annual pension cost of $3,609,168 to TCRS was equal to BLOUNT CO EMP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BLOUNT CO EMP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

UNION CO BD OF ED
83570

Plan Description

Employees of UNION CO BD OF ED are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as UNION CO BD OF ED participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

UNION CO BD OF ED requires employees to contribute 5.0 percent of earnable compensation.

UNION CO BD OF ED is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.94% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for UNION CO BD OF ED is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, UNION CO BD OF ED's annual pension cost of $206,550 to TCRS was equal to UNION CO BD OF ED's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. UNION CO BD OF ED's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

UNION COUNTY GENERAL FUND
83571

Plan Description

Employees of UNION COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as UNION COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

UNION COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

UNION COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.49% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for UNION COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, UNION COUNTY GENERAL FUND's annual pension cost of $207,144 to TCRS was equal to UNION COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. UNION COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SWEETWATER
83580

Plan Description

Employees of SWEETWATER are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SWEETWATER participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SWEETWATER requires employees to contribute 5.0 percent of earnable compensation.

SWEETWATER is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.23% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SWEETWATER is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SWEETWATER's annual pension cost of $226,289 to TCRS was equal to SWEETWATER's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SWEETWATER's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

JEFFERSON COUNTY
83610

Plan Description

Employees of JEFFERSON COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as JEFFERSON COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

JEFFERSON COUNTY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

JEFFERSON COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.78% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for JEFFERSON COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, JEFFERSON COUNTY's annual pension cost of $2,965,340 to TCRS was equal to JEFFERSON COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. JEFFERSON COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ERIN
83620

Plan Description

Employees of ERIN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. ERIN has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ERIN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ERIN requires employees to contribute 5.0 percent of earnable compensation.

ERIN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.50% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ERIN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ERIN's annual pension cost of $58,531 to TCRS was equal to ERIN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ERIN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ERIN 83620

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$58,531	100.00%	$0.00
June 30, 2012	$58,714	100.00%	$0.00
June 30, 2011	$55,915	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 98.09 percent funded. The actuarial accrued liability for benefits was 1.95 million, and the actuarial value of assets was $1.91 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.04 million. The covered payroll (annual payroll of active employees covered by the plan) $0.57 million, and the ratio of the UAAL to the covered payroll was 6.57 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

JACKSON
83640

Plan Description

Employees of JACKSON are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. JACKSON has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as JACKSON participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

JACKSON has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

JACKSON is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 19.13% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for JACKSON is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, JACKSON's annual pension cost of $6,164,494 to TCRS was equal to JACKSON's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. JACKSON's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 13 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ATHENS CITY SCHS
83650

Plan Description

Employees of ATHENS CITY SCHS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ATHENS CITY SCHS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ATHENS CITY SCHS requires employees to contribute 5.0 percent of earnable compensation.

ATHENS CITY SCHS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.30% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ATHENS CITY SCHS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ATHENS CITY SCHS's annual pension cost of $159,836 to TCRS was equal to ATHENS CITY SCHS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ATHENS CITY SCHS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

OBION COUNTY COURT
83660

Plan Description

Employees of OBION COUNTY COURT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as OBION COUNTY COURT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

OBION COUNTY COURT requires employees to contribute 5.0 percent of earnable compensation.

OBION COUNTY COURT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.42% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for OBION COUNTY COURT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, OBION COUNTY COURT's annual pension cost of $631,834 to TCRS was equal to OBION COUNTY COURT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. OBION COUNTY COURT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CROSSVILLE
83670

Plan Description

Employees of CROSSVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CROSSVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

CROSSVILLE withdrew from TCRS effective July 1, 2013. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CROSSVILLE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

CROSSVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.30% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CROSSVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CROSSVILLE's annual pension cost of $829,553 to TCRS was equal to CROSSVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CROSSVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CARROLL COUNTY CRT
83680

Plan Description

Employees of CARROLL COUNTY CRT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CARROLL COUNTY CRT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CARROLL COUNTY CRT requires employees to contribute 5.0 percent of earnable compensation.

CARROLL COUNTY CRT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.74% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CARROLL COUNTY CRT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CARROLL COUNTY CRT's annual pension cost of $487,042 to TCRS was equal to CARROLL COUNTY CRT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CARROLL COUNTY CRT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CARROLL COUNTY CRT 83680

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$487,042	100.00%	$0.00
June 30, 2012	$454,235	100.00%	$0.00
June 30, 2011	$448,189	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 97.16 percent funded. The actuarial accrued liability for benefits was 15.62 million, and the actuarial value of assets was $15.18 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.44 million. The covered payroll (annual payroll of active employees covered by the plan) $5.67 million, and the ratio of the UAAL to the covered payroll was 7.82 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

CARROLL COUNTY COMMISIONERS
83687

Plan Description

Employees of CARROLL COUNTY COMMISIONERS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CARROLL COUNTY COMMISIONERS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CARROLL COUNTY COMMISIONERS requires employees to contribute 5.0 percent of earnable compensation.

CARROLL COUNTY COMMISIONERS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 66.61% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CARROLL COUNTY COMMISIONERS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CARROLL COUNTY COMMISIONERS's annual pension cost of $8,626 to TCRS was equal to CARROLL COUNTY COMMISIONERS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CARROLL COUNTY COMMISIONERS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BOLIVAR
83690

Plan Description

Employees of BOLIVAR are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BOLIVAR participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BOLIVAR has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

BOLIVAR is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 18.15% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BOLIVAR is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BOLIVAR's annual pension cost of $438,837 to TCRS was equal to BOLIVAR's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BOLIVAR's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FENTRESS CO BD OF ED
83700

Plan Description

Employees of FENTRESS CO BD OF ED are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FENTRESS CO BD OF ED participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FENTRESS CO BD OF ED requires employees to contribute 5.0 percent of earnable compensation.

FENTRESS CO BD OF ED is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.45% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FENTRESS CO BD OF ED is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FENTRESS CO BD OF ED's annual pension cost of $143,061 to TCRS was equal to FENTRESS CO BD OF ED's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FENTRESS CO BD OF ED's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FENTRESS COUNTY GENERAL FUND
83702

Plan Description

Employees of FENTRESS COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FENTRESS COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FENTRESS COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

FENTRESS COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.94% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FENTRESS COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FENTRESS COUNTY GENERAL FUND's annual pension cost of $273,556 to TCRS was equal to FENTRESS COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FENTRESS COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FRANKLIN SPECIAL CITY SCHOOL DISTRICT
83710

Plan Description

Employees of FRANKLIN SPECIAL CITY SCHOOL DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FRANKLIN SPECIAL CITY SCHOOL DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FRANKLIN SPECIAL CITY SCHOOL DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

FRANKLIN SPECIAL CITY SCHOOL DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.64% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FRANKLIN SPECIAL CITY SCHOOL DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FRANKLIN SPECIAL CITY SCHOOL DISTRICT's annual pension cost of $600,504 to TCRS was equal to FRANKLIN SPECIAL CITY SCHOOL DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FRANKLIN SPECIAL CITY SCHOOL DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FRANKLIN CO FINANCE DEPT
83761

Plan Description

Employees of FRANKLIN CO FINANCE DEPT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FRANKLIN CO FINANCE DEPT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FRANKLIN CO FINANCE DEPT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

FRANKLIN CO FINANCE DEPT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.22% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FRANKLIN CO FINANCE DEPT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FRANKLIN CO FINANCE DEPT's annual pension cost of $1,710,671 to TCRS was equal to FRANKLIN CO FINANCE DEPT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FRANKLIN CO FINANCE DEPT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LAKE COUNTY
83790

Plan Description

Employees of LAKE COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LAKE COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LAKE COUNTY requires employees to contribute 5.0 percent of earnable compensation.

LAKE COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.82% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LAKE COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LAKE COUNTY's annual pension cost of $162,372 to TCRS was equal to LAKE COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LAKE COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 12 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HARDIN CO GEN HOSP
83860

Plan Description

Employees of HARDIN CO GEN HOSP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HARDIN CO GEN HOSP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

HARDIN CO GEN HOSP withdrew from TCRS effective July 1, 2008 because the entity was no longer eligible to participate in TCRS. Employees at the date of withdrawal will not accrue salary or service credit in TCRS after the date of withdrawal. The employer will continue to be responsible for the pension liability related to the affected employees and retirees for service accrued up to the date of withdrawal.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HARDIN CO GEN HOSP has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HARDIN CO GEN HOSP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.24% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HARDIN CO GEN HOSP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HARDIN CO GEN HOSP's annual pension cost of $339,869 to TCRS was equal to HARDIN CO GEN HOSP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HARDIN CO GEN HOSP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 12 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MOORE CO BD OF ED
83880

Plan Description

Employees of MOORE CO BD OF ED are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MOORE CO BD OF ED participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MOORE CO BD OF ED requires employees to contribute 5.0 percent of earnable compensation.

MOORE CO BD OF ED is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 2.78% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MOORE CO BD OF ED is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MOORE CO BD OF ED's annual pension cost of $29,897 to TCRS was equal to MOORE CO BD OF ED's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MOORE CO BD OF ED's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SAVANNAH
83890

Plan Description

Employees of SAVANNAH are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SAVANNAH participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

SAVANNAH withdrew from TCRS effective July 1, 2013. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SAVANNAH requires employees to contribute 5.0 percent of earnable compensation.

SAVANNAH is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.09% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SAVANNAH is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SAVANNAH's annual pension cost of $191,642 to TCRS was equal to SAVANNAH's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SAVANNAH's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LAUDERDALE COUNTY
83900

Plan Description

Employees of LAUDERDALE COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LAUDERDALE COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LAUDERDALE COUNTY requires employees to contribute 5.0 percent of earnable compensation.

LAUDERDALE COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.87% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LAUDERDALE COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LAUDERDALE COUNTY's annual pension cost of $834,619 to TCRS was equal to LAUDERDALE COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LAUDERDALE COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ALAMO
83910

Plan Description

Employees of ALAMO are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ALAMO participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ALAMO requires employees to contribute 5.0 percent of earnable compensation.

ALAMO is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.97% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ALAMO is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ALAMO's annual pension cost of $106,384 to TCRS was equal to ALAMO's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ALAMO's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ALPHA-TALBOTT UT DIST
83920

Plan Description

Employees of ALPHA-TALBOTT UT DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ALPHA-TALBOTT UT DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ALPHA-TALBOTT UT DIST has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

ALPHA-TALBOTT UT DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 17.20% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ALPHA-TALBOTT UT DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ALPHA-TALBOTT UT DIST's annual pension cost of $85,064 to TCRS was equal to ALPHA-TALBOTT UT DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ALPHA-TALBOTT UT DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

COUNTY WIDE UT DIST
83980

Plan Description

Employees of COUNTY WIDE UT DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as COUNTY WIDE UT DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

COUNTY WIDE UT DIST requires employees to contribute 5.0 percent of earnable compensation.

COUNTY WIDE UT DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for COUNTY WIDE UT DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, COUNTY WIDE UT DIST's annual pension cost of $2 to TCRS was equal to COUNTY WIDE UT DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. COUNTY WIDE UT DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

COUNTY WIDE UT DIST 83980

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$2	100.00%	$0.00

MIDDLE TENN UT DIST
83990

Plan Description

Employees of MIDDLE TENN UT DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MIDDLE TENN UT DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MIDDLE TENN UT DIST has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MIDDLE TENN UT DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.63% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MIDDLE TENN UT DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MIDDLE TENN UT DIST's annual pension cost of $729,490 to TCRS was equal to MIDDLE TENN UT DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MIDDLE TENN UT DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

COFFEE COUNTY GENERAL FUND
84003

Plan Description

Employees of COFFEE COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as COFFEE COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

COFFEE COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

COFFEE COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.52% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for COFFEE COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, COFFEE COUNTY GENERAL FUND's annual pension cost of $1,109,927 to TCRS was equal to COFFEE COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. COFFEE COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CAMPBELL CO GEN EMP
84030

Plan Description

Employees of CAMPBELL CO GEN EMP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CAMPBELL CO GEN EMP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CAMPBELL CO GEN EMP requires employees to contribute 5.0 percent of earnable compensation.

CAMPBELL CO GEN EMP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.95% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CAMPBELL CO GEN EMP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CAMPBELL CO GEN EMP's annual pension cost of $745,129 to TCRS was equal to CAMPBELL CO GEN EMP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CAMPBELL CO GEN EMP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HOHENWALD HOUSING AUTH
85020

Plan Description

Employees of HOHENWALD HOUSING AUTH are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HOHENWALD HOUSING AUTH participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HOHENWALD HOUSING AUTH has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HOHENWALD HOUSING AUTH is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.63% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HOHENWALD HOUSING AUTH is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HOHENWALD HOUSING AUTH's annual pension cost of $26,006 to TCRS was equal to HOHENWALD HOUSING AUTH's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HOHENWALD HOUSING AUTH's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Plan Description

Employees of ADAMS, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ADAMS, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ADAMS, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

ADAMS, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.95% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ADAMS, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ADAMS, CITY OF's annual pension cost of $24,239 to TCRS was equal to ADAMS, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ADAMS, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 10 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ADAMS, CITY OF 85050

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$24,239	100.00%	$0.00
June 30, 2012	$24,315	100.00%	$0.00
June 30, 2011	$25,998	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 87.58 percent funded. The actuarial accrued liability for benefits was 0.81 million, and the actuarial value of assets was $0.71 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.10 million. The covered payroll (annual payroll of active employees covered by the plan) $0.30 million, and the ratio of the UAAL to the covered payroll was 33.70 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

NETWORKS SULLIVAN PARTNERSHIP
86020

Plan Description

Employees of NETWORKS SULLIVAN PARTNERSHIP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as NETWORKS SULLIVAN PARTNERSHIP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

NETWORKS SULLIVAN PARTNERSHIP requires employees to contribute 5.0 percent of earnable compensation.

NETWORKS SULLIVAN PARTNERSHIP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for NETWORKS SULLIVAN PARTNERSHIP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, NETWORKS SULLIVAN PARTNERSHIP's annual pension cost of $0 to TCRS was equal to NETWORKS SULLIVAN PARTNERSHIP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. NETWORKS SULLIVAN PARTNERSHIP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DANDRIDGE, TOWN OF
86030

Plan Description

Employees of DANDRIDGE, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DANDRIDGE, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DANDRIDGE, TOWN OF has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

DANDRIDGE, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.20% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DANDRIDGE, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DANDRIDGE, TOWN OF's annual pension cost of $200,883 to TCRS was equal to DANDRIDGE, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DANDRIDGE, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LINCOLN CO COURTHOUSE EMP
86060

Plan Description

Employees of LINCOLN CO COURTHOUSE EMP are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LINCOLN CO COURTHOUSE EMP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LINCOLN CO COURTHOUSE EMP requires employees to contribute 5.0 percent of earnable compensation.

LINCOLN CO COURTHOUSE EMP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.12% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LINCOLN CO COURTHOUSE EMP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LINCOLN CO COURTHOUSE EMP's annual pension cost of $1,163,367 to TCRS was equal to LINCOLN CO COURTHOUSE EMP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LINCOLN CO COURTHOUSE EMP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HAMBLEN CO COURTHOUSE
86070

Plan Description

Employees of HAMBLEN CO COURTHOUSE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. HAMBLEN CO COURTHOUSE has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HAMBLEN CO COURTHOUSE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HAMBLEN CO COURTHOUSE requires employees to contribute 5.0 percent of earnable compensation.

HAMBLEN CO COURTHOUSE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.40% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HAMBLEN CO COURTHOUSE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HAMBLEN CO COURTHOUSE's annual pension cost of $1,493,029 to TCRS was equal to HAMBLEN CO COURTHOUSE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HAMBLEN CO COURTHOUSE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WHITWELL, CITY OF
86080

Plan Description

Employees of WHITWELL, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WHITWELL, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WHITWELL, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

WHITWELL, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WHITWELL, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WHITWELL, CITY OF's annual pension cost of $0 to TCRS was equal to WHITWELL, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WHITWELL, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SEVIER CO UT DIST
86090

Plan Description

Employees of SEVIER CO UT DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SEVIER CO UT DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SEVIER CO UT DIST requires employees to contribute 5.0 percent of earnable compensation.

SEVIER CO UT DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.50% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SEVIER CO UT DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SEVIER CO UT DIST's annual pension cost of $368,152 to TCRS was equal to SEVIER CO UT DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SEVIER CO UT DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HENDERSONVILLE UT DIST
87010

Plan Description

Employees of HENDERSONVILLE UT DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HENDERSONVILLE UT DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HENDERSONVILLE UT DIST has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HENDERSONVILLE UT DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.40% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HENDERSONVILLE UT DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HENDERSONVILLE UT DIST's annual pension cost of $298,184 to TCRS was equal to HENDERSONVILLE UT DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HENDERSONVILLE UT DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SO CEN HUMAN RES AGCY
87030

Plan Description

Employees of SO CEN HUMAN RES AGCY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SO CEN HUMAN RES AGCY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

SO CEN HUMAN RES AGCY withdrew from TCRS effective June 30, 1984. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

PERRY COUNTY
87040

Plan Description

Employees of PERRY COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as PERRY COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

PERRY COUNTY requires employees to contribute 5.0 percent of earnable compensation.

PERRY COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.91% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for PERRY COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, PERRY COUNTY's annual pension cost of $452,802 to TCRS was equal to PERRY COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. PERRY COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Plan Description

Employees of OVERTON COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as OVERTON COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

OVERTON COUNTY requires employees to contribute 5.0 percent of earnable compensation.

OVERTON COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.53% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for OVERTON COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, OVERTON COUNTY's annual pension cost of $580,828 to TCRS was equal to OVERTON COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. OVERTON COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

OVERTON COUNTY 87050

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$580,828	100.00%	$0.00
June 30, 2012	$532,153	100.00%	$0.00
June 30, 2011	$531,244	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 96.70 percent funded. The actuarial accrued liability for benefits was 20.71 million, and the actuarial value of assets was $20.02 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.68 million. The covered payroll (annual payroll of active employees covered by the plan) $8.84 million, and the ratio of the UAAL to the covered payroll was 7.72 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

OVERTON COUNTY 911 DISTRICT
87056

Plan Description

Employees of OVERTON COUNTY 911 DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as OVERTON COUNTY 911 DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

OVERTON COUNTY 911 DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

OVERTON COUNTY 911 DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.20% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for OVERTON COUNTY 911 DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, OVERTON COUNTY 911 DISTRICT's annual pension cost of $19,235 to TCRS was equal to OVERTON COUNTY 911 DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. OVERTON COUNTY 911 DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MEMPHIS HOUSING AUTH
87080

Plan Description

Employees of MEMPHIS HOUSING AUTH are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MEMPHIS HOUSING AUTH participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MEMPHIS HOUSING AUTH had previously adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll. As of October 1, 2010, MEMPHIS HOUSING AUTH has elected to discontinue the non-contributory provision for all future hires. This will require all new hires to contribute 5.0 percent of earnable compensation. Employees who were employed prior to October 1, 2010 will continue to be eligible for the noncontributory provision.

MEMPHIS HOUSING AUTH is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.11% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MEMPHIS HOUSING AUTH is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MEMPHIS HOUSING AUTH's annual pension cost of $615,108 to TCRS was equal to MEMPHIS HOUSING AUTH's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MEMPHIS HOUSING AUTH's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BRADLEY COUNTY
87110

Plan Description

Employees of BRADLEY COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BRADLEY COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BRADLEY COUNTY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

BRADLEY COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.86% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BRADLEY COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BRADLEY COUNTY's annual pension cost of $3,502,832 to TCRS was equal to BRADLEY COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BRADLEY COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GLEASON, CITY OF
87120

Plan Description

Employees of GLEASON, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GLEASON, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GLEASON, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

GLEASON, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GLEASON, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GLEASON, CITY OF's annual pension cost of $0 to TCRS was equal to GLEASON, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GLEASON, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GLEASON, CITY OF 87120

WAYNE CO GENERAL FUND COURT
87133

Plan Description

Employees of WAYNE CO GENERAL FUND COURT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WAYNE CO GENERAL FUND COURT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WAYNE CO GENERAL FUND COURT requires employees to contribute 5.0 percent of earnable compensation.

WAYNE CO GENERAL FUND COURT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.36% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WAYNE CO GENERAL FUND COURT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WAYNE CO GENERAL FUND COURT's annual pension cost of $584,825 to TCRS was equal to WAYNE CO GENERAL FUND COURT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WAYNE CO GENERAL FUND COURT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TENN SCH BD ASSN
87160

Plan Description

Employees of TENN SCH BD ASSN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENN SCH BD ASSN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENN SCH BD ASSN has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TENN SCH BD ASSN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.69% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENN SCH BD ASSN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENN SCH BD ASSN's annual pension cost of $111,755 to TCRS was equal to TENN SCH BD ASSN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENN SCH BD ASSN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 12 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TENN SEC SCH ATH ASSN
87170

Plan Description

Employees of TENN SEC SCH ATH ASSN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENN SEC SCH ATH ASSN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENN SEC SCH ATH ASSN has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TENN SEC SCH ATH ASSN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 21.53% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENN SEC SCH ATH ASSN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENN SEC SCH ATH ASSN's annual pension cost of $221,231 to TCRS was equal to TENN SEC SCH ATH ASSN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENN SEC SCH ATH ASSN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

NEWPORT, CITY OF
87200

Plan Description

Employees of NEWPORT, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. NEWPORT, CITY OF has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as NEWPORT, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

NEWPORT, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

NEWPORT, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.58% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for NEWPORT, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, NEWPORT, CITY OF's annual pension cost of $613,641 to TCRS was equal to NEWPORT, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. NEWPORT, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 11 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

NEWPORT, CITY OF 87200

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$613,641	100.00%	$0.00
June 30, 2012	$616,558	100.00%	$0.00
June 30, 2011	$601,353	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 83.43 percent funded. The actuarial accrued liability for benefits was 18.71 million, and the actuarial value of assets was $15.61 million, resulting in an unfunded actuarial accrued liability (UAAL) of $3.10 million. The covered payroll (annual payroll of active employees covered by the plan) $4.12 million, and the ratio of the UAAL to the covered payroll was 75.25 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

HENDERSONVILLE, CITY OF
87210

Plan Description

Employees of HENDERSONVILLE, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HENDERSONVILLE, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HENDERSONVILLE, CITY OF has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HENDERSONVILLE, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.41% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HENDERSONVILLE, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HENDERSONVILLE, CITY OF's annual pension cost of $2,227,422 to TCRS was equal to HENDERSONVILLE, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HENDERSONVILLE, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as VOLUNTEER GEN HOSP participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

VOLUNTEER GEN HOSP withdrew from TCRS effective December 31, 1981 because the entity was no longer eligible to participate in TCRS. Employees at the date of withdrawal will not accrue salary or service credit in TCRS after the date of withdrawal. The employer will continue to be responsible for the pension liability related to the affected employees and retirees for service accrued up to the date of withdrawal.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

VOLUNTEER GEN HOSP requires employees to contribute 5.0 percent of earnable compensation.

VOLUNTEER GEN HOSP is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for VOLUNTEER GEN HOSP is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, VOLUNTEER GEN HOSP's annual pension cost of $0 to TCRS was equal to VOLUNTEER GEN HOSP's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. VOLUNTEER GEN HOSP's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 0 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FIRST UTILITY DIST OF TIPTON COUNTY
87270

Plan Description

Employees of FIRST UTILITY DIST OF TIPTON COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FIRST UTILITY DIST OF TIPTON COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FIRST UTILITY DIST OF TIPTON COUNTY requires employees to contribute 5.0 percent of earnable compensation.

FIRST UTILITY DIST OF TIPTON COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.18% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FIRST UTILITY DIST OF TIPTON COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FIRST UTILITY DIST OF TIPTON COUNTY's annual pension cost of $37,224 to TCRS was equal to FIRST UTILITY DIST OF TIPTON COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FIRST UTILITY DIST OF TIPTON COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LAFOLLETTE, CITY OF
87280

Plan Description

Employees of LAFOLLETTE, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LAFOLLETTE, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LAFOLLETTE, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

LAFOLLETTE, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.02% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LAFOLLETTE, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LAFOLLETTE, CITY OF's annual pension cost of $241,969 to TCRS was equal to LAFOLLETTE, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LAFOLLETTE, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 12 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WASHINGTON CO / JOHNSON CITY EMS
87290

Plan Description

Employees of WASHINGTON CO / JOHNSON CITY EMS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WASHINGTON CO / JOHNSON CITY EMS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WASHINGTON CO / JOHNSON CITY EMS has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WASHINGTON CO / JOHNSON CITY EMS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.43% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WASHINGTON CO / JOHNSON CITY EMS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WASHINGTON CO / JOHNSON CITY EMS's annual pension cost of $418,247 to TCRS was equal to WASHINGTON CO / JOHNSON CITY EMS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WASHINGTON CO / JOHNSON CITY EMS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HAMILTON COUNTY
87300

Plan Description

Employees of HAMILTON COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HAMILTON COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HAMILTON COUNTY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HAMILTON COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.08% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HAMILTON COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HAMILTON COUNTY's annual pension cost of $14,337,306 to TCRS was equal to HAMILTON COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HAMILTON COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WHITE HOUSE, CITY OF
87310

Plan Description

Employees of WHITE HOUSE, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WHITE HOUSE, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WHITE HOUSE, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

WHITE HOUSE, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.89% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WHITE HOUSE, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WHITE HOUSE, CITY OF's annual pension cost of $168,706 to TCRS was equal to WHITE HOUSE, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WHITE HOUSE, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WHITE HOUSE, CITY OF 87310

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$168,706	100.00%	$0.00
June 30, 2012	$166,868	100.00%	$0.00
June 30, 2011	$174,387	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 95.39 percent funded. The actuarial accrued liability for benefits was 4.60 million, and the actuarial value of assets was $4.39 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.21 million. The covered payroll (annual payroll of active employees covered by the plan) $2.98 million, and the ratio of the UAAL to the covered payroll was 7.10 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

TENNESSEE HISTORICAL SOCIETY
87320

Plan Description

Employees of TENNESSEE HISTORICAL SOCIETY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENNESSEE HISTORICAL SOCIETY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENNESSEE HISTORICAL SOCIETY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TENNESSEE HISTORICAL SOCIETY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.77% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENNESSEE HISTORICAL SOCIETY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENNESSEE HISTORICAL SOCIETY's annual pension cost of $5,453 to TCRS was equal to TENNESSEE HISTORICAL SOCIETY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENNESSEE HISTORICAL SOCIETY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HAWKINS COUNTY 911 DISTRICT
87359

Plan Description

Employees of HAWKINS COUNTY 911 DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HAWKINS COUNTY 911 DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HAWKINS COUNTY 911 DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

HAWKINS COUNTY 911 DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 4.19% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HAWKINS COUNTY 911 DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HAWKINS COUNTY 911 DISTRICT's annual pension cost of $14,160 to TCRS was equal to HAWKINS COUNTY 911 DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HAWKINS COUNTY 911 DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HAWKINS COUNTY 911 DISTRICT 87359

COOKEVILLE HOUSING AUTH
87380

Plan Description

Employees of COOKEVILLE HOUSING AUTH are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as COOKEVILLE HOUSING AUTH participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

COOKEVILLE HOUSING AUTH has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

COOKEVILLE HOUSING AUTH is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.92% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for COOKEVILLE HOUSING AUTH is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, COOKEVILLE HOUSING AUTH's annual pension cost of $141,637 to TCRS was equal to COOKEVILLE HOUSING AUTH's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. COOKEVILLE HOUSING AUTH's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 16 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Plan Description

Employees of BRADFORD SPEC SCH DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BRADFORD SPEC SCH DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BRADFORD SPEC SCH DIST requires employees to contribute 5.0 percent of earnable compensation.

BRADFORD SPEC SCH DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BRADFORD SPEC SCH DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BRADFORD SPEC SCH DIST's annual pension cost of $0 to TCRS was equal to BRADFORD SPEC SCH DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BRADFORD SPEC SCH DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GATLINBURG, CITY OF
87430

Plan Description

Employees of GATLINBURG, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GATLINBURG, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GATLINBURG, CITY OF has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

GATLINBURG, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 16.53% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GATLINBURG, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GATLINBURG, CITY OF's annual pension cost of $1,685,674 to TCRS was equal to GATLINBURG, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GATLINBURG, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BLOUNT COUNTY LIBRARY SYSTEM
87440

Plan Description

Employees of BLOUNT COUNTY LIBRARY SYSTEM are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BLOUNT COUNTY LIBRARY SYSTEM participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BLOUNT COUNTY LIBRARY SYSTEM requires employees to contribute 5.0 percent of earnable compensation.

BLOUNT COUNTY LIBRARY SYSTEM is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.54% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BLOUNT COUNTY LIBRARY SYSTEM is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BLOUNT COUNTY LIBRARY SYSTEM's annual pension cost of $63,758 to TCRS was equal to BLOUNT COUNTY LIBRARY SYSTEM's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BLOUNT COUNTY LIBRARY SYSTEM's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MADISONVILLE
87460

Plan Description

Employees of MADISONVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MADISONVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MADISONVILLE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MADISONVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.41% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MADISONVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MADISONVILLE's annual pension cost of $187,736 to TCRS was equal to MADISONVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MADISONVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MADISON CO GEN FUND
87480

Plan Description

Employees of MADISON CO GEN FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MADISON CO GEN FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

MADISON CO GEN FUND withdrew from TCRS effective July 1, 2012. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MADISON CO GEN FUND has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MADISON CO GEN FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.35% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MADISON CO GEN FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MADISON CO GEN FUND's annual pension cost of $4,774,883 to TCRS was equal to MADISON CO GEN FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MADISON CO GEN FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MADISON COUNTY E-911 ECD
87488

Plan Description

Employees of MADISON COUNTY E-911 ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MADISON COUNTY E-911 ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MADISON COUNTY E-911 ECD has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MADISON COUNTY E-911 ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.93% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MADISON COUNTY E-911 ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MADISON COUNTY E-911 ECD's annual pension cost of $23,969 to TCRS was equal to MADISON COUNTY E-911 ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MADISON COUNTY E-911 ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 15 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MOUNTAIN CITY
87490

Plan Description

Employees of MOUNTAIN CITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MOUNTAIN CITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MOUNTAIN CITY requires employees to contribute 5.0 percent of earnable compensation.

MOUNTAIN CITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.26% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MOUNTAIN CITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MOUNTAIN CITY's annual pension cost of $136,320 to TCRS was equal to MOUNTAIN CITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MOUNTAIN CITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Political subdivisions such as DEKALB COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DEKALB COUNTY requires employees to contribute 5.0 percent of earnable compensation.

DEKALB COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.26% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DEKALB COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DEKALB COUNTY's annual pension cost of $407,403 to TCRS was equal to DEKALB COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DEKALB COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DEKALB COUNTY 87520

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$407,403	100.00%	$0.00
June 30, 2012	$403,656	100.00%	$0.00
June 30, 2011	$381,483	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 92.68 percent funded. The actuarial accrued liability for benefits was 10.08 million, and the actuarial value of assets was $9.34 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.74 million. The covered payroll (annual payroll of active employees covered by the plan) $5.92 million, and the ratio of the UAAL to the covered payroll was 12.44 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

WHITEVILLE
87530

Plan Description

Employees of WHITEVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WHITEVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WHITEVILLE requires employees to contribute 5.0 percent of earnable compensation.

WHITEVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.48% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WHITEVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WHITEVILLE's annual pension cost of $36,176 to TCRS was equal to WHITEVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WHITEVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HICKMAN COUNTY GEN FUND
87540

Plan Description

Employees of HICKMAN COUNTY GEN FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HICKMAN COUNTY GEN FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HICKMAN COUNTY GEN FUND has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HICKMAN COUNTY GEN FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.24% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HICKMAN COUNTY GEN FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HICKMAN COUNTY GEN FUND's annual pension cost of $1,047,518 to TCRS was equal to HICKMAN COUNTY GEN FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HICKMAN COUNTY GEN FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ELIZABETHTON
87550

Plan Description

Employees of ELIZABETHTON are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ELIZABETHTON participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ELIZABETHTON had previously adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll. As of July 1, 2011, ELIZABETHTON has elected to discontinue the non-contributory provision for all future hires. This will require all new hires to contribute 5.0 percent of earnable compensation. Employees who were employed prior to July 1, 2011 will continue to be eligible for the noncontributory provision.

ELIZABETHTON is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.61% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ELIZABETHTON is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ELIZABETHTON's annual pension cost of $1,155,662 to TCRS was equal to ELIZABETHTON's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ELIZABETHTON's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 13 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WESTMORELAND
87570

Plan Description

Employees of WESTMORELAND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WESTMORELAND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WESTMORELAND has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WESTMORELAND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.51% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WESTMORELAND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WESTMORELAND's annual pension cost of $58,863 to TCRS was equal to WESTMORELAND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WESTMORELAND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MEIGS CO GEN AND HWY
87580

Plan Description

Employees of MEIGS CO GEN AND HWY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MEIGS CO GEN AND HWY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

MEIGS CO GEN AND HWY withdrew from TCRS effective July 1, 1984. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MEIGS CO GEN AND HWY requires employees to contribute 5.0 percent of earnable compensation.

MEIGS CO GEN AND HWY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MEIGS CO GEN AND HWY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MEIGS CO GEN AND HWY's annual pension cost of $0 to TCRS was equal to MEIGS CO GEN AND HWY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MEIGS CO GEN AND HWY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TRACY CITY
87590

Plan Description

Employees of TRACY CITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TRACY CITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

TRACY CITY withdrew from TCRS effective July 1, 1990. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TRACY CITY requires employees to contribute 5.0 percent of earnable compensation.

TRACY CITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TRACY CITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TRACY CITY's annual pension cost of $7,725 to TCRS was equal to TRACY CITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TRACY CITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 11 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

JACKSON MADISON CO LIBRARY
87600

Plan Description

Employees of JACKSON MADISON CO LIBRARY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as JACKSON MADISON CO LIBRARY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

JACKSON MADISON CO LIBRARY withdrew from TCRS effective November 1, 2006 because the entity was no longer eligible to participate in TCRS. Employees at the date of withdrawal will not accrue salary or service credit in TCRS after the date of withdrawal. The employer will continue to be responsible for the pension liability related to the affected employees and retirees for service accrued up to the date of withdrawal.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

JACKSON MADISON CO LIBRARY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

JACKSON MADISON CO LIBRARY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for JACKSON MADISON CO LIBRARY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, JACKSON MADISON CO LIBRARY's annual pension cost of $121,608 to TCRS was equal to JACKSON MADISON CO LIBRARY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. JACKSON MADISON CO LIBRARY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ARGIE COOPER PUBLIC LIBRARY
87630

Plan Description

Employees of ARGIE COOPER PUBLIC LIBRARY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ARGIE COOPER PUBLIC LIBRARY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ARGIE COOPER PUBLIC LIBRARY requires employees to contribute 5.0 percent of earnable compensation.

ARGIE COOPER PUBLIC LIBRARY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ARGIE COOPER PUBLIC LIBRARY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ARGIE COOPER PUBLIC LIBRARY's annual pension cost of $0 to TCRS was equal to ARGIE COOPER PUBLIC LIBRARY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ARGIE COOPER PUBLIC LIBRARY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

EDWARD GAUCHE FISHER PUBLIC LIBRARY
87631

Plan Description

Employees of EDWARD GAUCHE FISHER PUBLIC LIBRARY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as EDWARD GAUCHE FISHER PUBLIC LIBRARY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

EDWARD GAUCHE FISHER PUBLIC LIBRARY requires employees to contribute 5.0 percent of earnable compensation.

EDWARD GAUCHE FISHER PUBLIC LIBRARY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.76% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for EDWARD GAUCHE FISHER PUBLIC LIBRARY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, EDWARD GAUCHE FISHER PUBLIC LIBRARY's annual pension cost of $6,651 to TCRS was equal to EDWARD GAUCHE FISHER PUBLIC LIBRARY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. EDWARD GAUCHE FISHER PUBLIC LIBRARY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

RED BANK
87650

Plan Description

Employees of RED BANK are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as RED BANK participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

RED BANK has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

RED BANK is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.09% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for RED BANK is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, RED BANK's annual pension cost of $289,583 to TCRS was equal to RED BANK's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. RED BANK's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ERWIN, TOWN OF
87660

Plan Description

Employees of ERWIN, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ERWIN, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ERWIN, TOWN OF has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

ERWIN, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.73% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ERWIN, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ERWIN, TOWN OF's annual pension cost of $241,954 to TCRS was equal to ERWIN, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ERWIN, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 13 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ERWIN, TOWN OF 87660

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$241,954	100.00%	$0.00
June 30, 2012	$228,542	100.00%	$0.00
June 30, 2011	$233,423	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 74.62 percent funded. The actuarial accrued liability for benefits was 4.69 million, and the actuarial value of assets was $3.50 million, resulting in an unfunded actuarial accrued liability (UAAL) of $1.19 million. The covered payroll (annual payroll of active employees covered by the plan) $1.58 million, and the ratio of the UAAL to the covered payroll was 75.11 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

CHESTER CO GEN FUND
87670

Plan Description

Employees of CHESTER CO GEN FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CHESTER CO GEN FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CHESTER CO GEN FUND requires employees to contribute 5.0 percent of earnable compensation.

CHESTER CO GEN FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.44% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CHESTER CO GEN FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CHESTER CO GEN FUND's annual pension cost of $472,968 to TCRS was equal to CHESTER CO GEN FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CHESTER CO GEN FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SOUTHWEST HUMAN RESOURCE AGENCY
87676

Plan Description

Employees of SOUTHWEST HUMAN RESOURCE AGENCY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SOUTHWEST HUMAN RESOURCE AGENCY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SOUTHWEST HUMAN RESOURCE AGENCY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SOUTHWEST HUMAN RESOURCE AGENCY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.36% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SOUTHWEST HUMAN RESOURCE AGENCY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SOUTHWEST HUMAN RESOURCE AGENCY's annual pension cost of $738,207 to TCRS was equal to SOUTHWEST HUMAN RESOURCE AGENCY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SOUTHWEST HUMAN RESOURCE AGENCY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Plan Description

Employees of TENN SHERIFFS ASSN INC are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENN SHERIFFS ASSN INC participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENN SHERIFFS ASSN INC has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TENN SHERIFFS ASSN INC is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENN SHERIFFS ASSN INC is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENN SHERIFFS ASSN INC's annual pension cost of $0 to TCRS was equal to TENN SHERIFFS ASSN INC's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENN SHERIFFS ASSN INC's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 10 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

KNOX CO EXECUTIVE AND OFFICIALS
87730

Plan Description

Employees of KNOX CO EXECUTIVE AND OFFICIALS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as KNOX CO EXECUTIVE AND OFFICIALS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

KNOX CO EXECUTIVE AND OFFICIALS requires employees to contribute 5.0 percent of earnable compensation.

KNOX CO EXECUTIVE AND OFFICIALS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.70% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for KNOX CO EXECUTIVE AND OFFICIALS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, KNOX CO EXECUTIVE AND OFFICIALS's annual pension cost of $89,091 to TCRS was equal to KNOX CO EXECUTIVE AND OFFICIALS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. KNOX CO EXECUTIVE AND OFFICIALS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GIBSON CO SCH DIST
87740

Plan Description

Employees of GIBSON CO SCH DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GIBSON CO SCH DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GIBSON CO SCH DIST requires employees to contribute 5.0 percent of earnable compensation.

GIBSON CO SCH DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.60% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GIBSON CO SCH DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GIBSON CO SCH DIST's annual pension cost of $209,431 to TCRS was equal to GIBSON CO SCH DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GIBSON CO SCH DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FIRST UTILITY OF HAWKINS COUNTY
87754

Plan Description

Employees of FIRST UTILITY OF HAWKINS COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FIRST UTILITY OF HAWKINS COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FIRST UTILITY OF HAWKINS COUNTY requires employees to contribute 5.0 percent of earnable compensation.

FIRST UTILITY OF HAWKINS COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 3.21% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FIRST UTILITY OF HAWKINS COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FIRST UTILITY OF HAWKINS COUNTY's annual pension cost of $33,765 to TCRS was equal to FIRST UTILITY OF HAWKINS COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FIRST UTILITY OF HAWKINS COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SWEETWATER HOUSING AUTHORITY
87756

Plan Description

Employees of SWEETWATER HOUSING AUTHORITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SWEETWATER HOUSING AUTHORITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SWEETWATER HOUSING AUTHORITY requires employees to contribute 5.0 percent of earnable compensation.

SWEETWATER HOUSING AUTHORITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 1.63% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SWEETWATER HOUSING AUTHORITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SWEETWATER HOUSING AUTHORITY's annual pension cost of $4,424 to TCRS was equal to SWEETWATER HOUSING AUTHORITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SWEETWATER HOUSING AUTHORITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HARDEMAN FAYETTE UTILITY DISTRICT
87758

Plan Description

Employees of HARDEMAN FAYETTE UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HARDEMAN FAYETTE UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HARDEMAN FAYETTE UTILITY DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HARDEMAN FAYETTE UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.01% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HARDEMAN FAYETTE UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HARDEMAN FAYETTE UTILITY DISTRICT's annual pension cost of $50,454 to TCRS was equal to HARDEMAN FAYETTE UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HARDEMAN FAYETTE UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

June 30, 2013	$54,887	100.00%	$0.00
June 30, 2012	$43,229	100.00%	$0.00
June 30, 2011	$44,076	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 84.66 percent funded. The actuarial accrued liability for benefits was 2.13 million, and the actuarial value of assets was $1.80 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.33 million. The covered payroll (annual payroll of active employees covered by the plan) $0.66 million, and the ratio of the UAAL to the covered payroll was 49.49 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

HENDERSON CO JUDGES OFFICIALS EXECUTIVES
87811

Plan Description

Employees of HENDERSON CO JUDGES OFFICIALS EXECUTIVES are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HENDERSON CO JUDGES OFFICIALS EXECUTIVES participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HENDERSON CO JUDGES OFFICIALS EXECUTIVES requires employees to contribute 5.0 percent of earnable compensation.

HENDERSON CO JUDGES OFFICIALS EXECUTIVES is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.54% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HENDERSON CO JUDGES OFFICIALS EXECUTIVES is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HENDERSON CO JUDGES OFFICIALS EXECUTIVES's annual pension cost of $43,321 to TCRS was equal to HENDERSON CO JUDGES OFFICIALS EXECUTIVES's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HENDERSON CO JUDGES OFFICIALS EXECUTIVES's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 11 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DAVIDSON COUNTY OFFICIALS
87822

Plan Description

Employees of DAVIDSON COUNTY OFFICIALS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DAVIDSON COUNTY OFFICIALS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DAVIDSON COUNTY OFFICIALS has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

DAVIDSON COUNTY OFFICIALS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DAVIDSON COUNTY OFFICIALS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DAVIDSON COUNTY OFFICIALS's annual pension cost of $37,834 to TCRS was equal to DAVIDSON COUNTY OFFICIALS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DAVIDSON COUNTY OFFICIALS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 17 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DAVIDSON COUNTY OFFICIALS
87823

Plan Description

Employees of DAVIDSON COUNTY OFFICIALS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DAVIDSON COUNTY OFFICIALS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DAVIDSON COUNTY OFFICIALS has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

DAVIDSON COUNTY OFFICIALS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DAVIDSON COUNTY OFFICIALS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DAVIDSON COUNTY OFFICIALS's annual pension cost of $0 to TCRS was equal to DAVIDSON COUNTY OFFICIALS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DAVIDSON COUNTY OFFICIALS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DYER CO JUDGES EXECUTIVES OFFICIALS
87838

Plan Description

Employees of DYER CO JUDGES EXECUTIVES OFFICIALS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DYER CO JUDGES EXECUTIVES OFFICIALS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DYER CO JUDGES EXECUTIVES OFFICIALS requires employees to contribute 5.0 percent of earnable compensation.

DYER CO JUDGES EXECUTIVES OFFICIALS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.97% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DYER CO JUDGES EXECUTIVES OFFICIALS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DYER CO JUDGES EXECUTIVES OFFICIALS's annual pension cost of $52,848 to TCRS was equal to DYER CO JUDGES EXECUTIVES OFFICIALS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DYER CO JUDGES EXECUTIVES OFFICIALS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SEVIER COUNTY GENERAL FUND
87860

Plan Description

Employees of SEVIER COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SEVIER COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SEVIER COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

SEVIER COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.29% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SEVIER COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SEVIER COUNTY GENERAL FUND's annual pension cost of $3,443,655 to TCRS was equal to SEVIER COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SEVIER COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CLAIBORNE CO COURTHOUSE
87880

Plan Description

Employees of CLAIBORNE CO COURTHOUSE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CLAIBORNE CO COURTHOUSE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CLAIBORNE CO COURTHOUSE requires employees to contribute 5.0 percent of earnable compensation.

CLAIBORNE CO COURTHOUSE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.41% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CLAIBORNE CO COURTHOUSE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CLAIBORNE CO COURTHOUSE's annual pension cost of $1,110,817 to TCRS was equal to CLAIBORNE CO COURTHOUSE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CLAIBORNE CO COURTHOUSE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CLAIBORNE CO COURTHOUSE 87880

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$1,110,817	100.00%	$0.00
June 30, 2012	$1,216,592	100.00%	$0.00
June 30, 2011	$1,216,386	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 91.57 percent funded. The actuarial accrued liability for benefits was 43.58 million, and the actuarial value of assets was $39.91 million, resulting in an unfunded actuarial accrued liability (UAAL) of $3.67 million. The covered payroll (annual payroll of active employees covered by the plan) $19.67 million, and the ratio of the UAAL to the covered payroll was 18.68 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

MCNAIRY CO COURTHOUSE
87890

Plan Description

Employees of MCNAIRY CO COURTHOUSE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MCNAIRY CO COURTHOUSE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MCNAIRY CO COURTHOUSE requires employees to contribute 5.0 percent of earnable compensation.

MCNAIRY CO COURTHOUSE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.11% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MCNAIRY CO COURTHOUSE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MCNAIRY CO COURTHOUSE's annual pension cost of $372,519 to TCRS was equal to MCNAIRY CO COURTHOUSE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MCNAIRY CO COURTHOUSE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HIXSON UTILITY DISTRICT
87900

Plan Description

Employees of HIXSON UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HIXSON UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HIXSON UTILITY DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HIXSON UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 23.26% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HIXSON UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HIXSON UTILITY DISTRICT's annual pension cost of $277,953 to TCRS was equal to HIXSON UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HIXSON UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CAMDEN GEN FUND
88020

Plan Description

Employees of CAMDEN GEN FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CAMDEN GEN FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CAMDEN GEN FUND requires employees to contribute 5.0 percent of earnable compensation.

CAMDEN GEN FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.78% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CAMDEN GEN FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CAMDEN GEN FUND's annual pension cost of $162,089 to TCRS was equal to CAMDEN GEN FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CAMDEN GEN FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CORNERSVILLE
88030

Plan Description

Employees of CORNERSVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CORNERSVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CORNERSVILLE requires employees to contribute 5.0 percent of earnable compensation.

CORNERSVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 3.27% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CORNERSVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CORNERSVILLE's annual pension cost of $7,668 to TCRS was equal to CORNERSVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CORNERSVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LOOKOUT MTN
88040

Plan Description

Employees of LOOKOUT MTN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LOOKOUT MTN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LOOKOUT MTN requires employees to contribute 5.0 percent of earnable compensation.

LOOKOUT MTN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.58% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LOOKOUT MTN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LOOKOUT MTN's annual pension cost of $101,591 to TCRS was equal to LOOKOUT MTN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LOOKOUT MTN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CARTHAGE
88100

Plan Description

Employees of CARTHAGE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CARTHAGE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CARTHAGE requires employees to contribute 5.0 percent of earnable compensation.

CARTHAGE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.12% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CARTHAGE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CARTHAGE's annual pension cost of $88,422 to TCRS was equal to CARTHAGE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CARTHAGE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BRADFORD, CITY OF
88110

Plan Description

Employees of BRADFORD, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BRADFORD, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BRADFORD, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

BRADFORD, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.81% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BRADFORD, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BRADFORD, CITY OF's annual pension cost of $17,318 to TCRS was equal to BRADFORD, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BRADFORD, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

UNION COUNTY E-911
88150

Plan Description

Employees of UNION COUNTY E-911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as UNION COUNTY E-911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

UNION COUNTY E-911 requires employees to contribute 5.0 percent of earnable compensation.

UNION COUNTY E-911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.67% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for UNION COUNTY E-911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, UNION COUNTY E-911's annual pension cost of $12,985 to TCRS was equal to UNION COUNTY E-911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. UNION COUNTY E-911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CUMBERLAND CITY
88160

Plan Description

Employees of CUMBERLAND CITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CUMBERLAND CITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CUMBERLAND CITY requires employees to contribute 5.0 percent of earnable compensation.

CUMBERLAND CITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.23% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CUMBERLAND CITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CUMBERLAND CITY's annual pension cost of $16,587 to TCRS was equal to CUMBERLAND CITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CUMBERLAND CITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MT JULIET
88200

Plan Description

Employees of MT JULIET are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MT JULIET participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MT JULIET has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MT JULIET is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.54% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MT JULIET is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MT JULIET's annual pension cost of $731,636 to TCRS was equal to MT JULIET's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MT JULIET's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

JOHNSON COUNTY
88210

Plan Description

Employees of JOHNSON COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. JOHNSON COUNTY has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as JOHNSON COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

JOHNSON COUNTY requires employees to contribute 5.0 percent of earnable compensation.

JOHNSON COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.71% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for JOHNSON COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, JOHNSON COUNTY's annual pension cost of $663,559 to TCRS was equal to JOHNSON COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. JOHNSON COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Plan Description

Employees of LENOIR CITY SCHOOLS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LENOIR CITY SCHOOLS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LENOIR CITY SCHOOLS requires employees to contribute 5.0 percent of earnable compensation.

LENOIR CITY SCHOOLS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.29% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LENOIR CITY SCHOOLS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LENOIR CITY SCHOOLS's annual pension cost of $196,787 to TCRS was equal to LENOIR CITY SCHOOLS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LENOIR CITY SCHOOLS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GREENE COUNTY GENERAL FUND
88220

Plan Description

Employees of GREENE COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GREENE COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GREENE COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

GREENE COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.34% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GREENE COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GREENE COUNTY GENERAL FUND's annual pension cost of $1,882,239 to TCRS was equal to GREENE COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GREENE COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

COCKE CO GENERAL FUND
88300

Plan Description

Employees of COCKE CO GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. COCKE CO GENERAL FUND has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as COCKE CO GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. LOBELVILLE
88311

Plan Description

Employees of LOBELVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LOBELVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LOBELVILLE had previously adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll. As of July 1, 2010, LOBELVILLE has elected to discontinue the non-contributory provision for all future hires. This will require all new hires to contribute 5.0 percent of earnable compensation. Employees who were employed prior to July 1, 2010 will continue to be eligible for the noncontributory provision.

LOBELVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.78% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LOBELVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LOBELVILLE's annual pension cost of $50,850 to TCRS was equal to LOBELVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LOBELVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LOBELVILLE 88311

MOUNT CARMEL
88312

Plan Description

Employees of MOUNT CARMEL are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MOUNT CARMEL participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MOUNT CARMEL has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MOUNT CARMEL is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.04% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MOUNT CARMEL is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MOUNT CARMEL's annual pension cost of $94,930 to TCRS was equal to MOUNT CARMEL's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MOUNT CARMEL's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MOUNT CARMEL 88312

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$94,930	100.00%	$0.00
June 30, 2012	$85,542	100.00%	$0.00
June 30, 2011	$94,958	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 94.06 percent funded. The actuarial accrued liability for benefits was 1.79 million, and the actuarial value of assets was $1.69 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.11 million. The covered payroll (annual payroll of active employees covered by the plan) $0.76 million, and the ratio of the UAAL to the covered payroll was 14.06 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

DECATURVILLE
88320

Plan Description

Employees of DECATURVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DECATURVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DECATURVILLE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

DECATURVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.15% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DECATURVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DECATURVILLE's annual pension cost of $25,526 to TCRS was equal to DECATURVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DECATURVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WAYNESBORO
88330

Plan Description

Employees of WAYNESBORO are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WAYNESBORO participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WAYNESBORO requires employees to contribute 5.0 percent of earnable compensation.

WAYNESBORO is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 4.43% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WAYNESBORO is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WAYNESBORO's annual pension cost of $30,697 to TCRS was equal to WAYNESBORO's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WAYNESBORO's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 15 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SOUTH FULTON, CITY OF
88350

Plan Description

Employees of SOUTH FULTON, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SOUTH FULTON, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

SOUTH FULTON, CITY OF withdrew from TCRS effective July 1, 2000. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SOUTH FULTON, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

SOUTH FULTON, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SOUTH FULTON, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SOUTH FULTON, CITY OF's annual pension cost of $0 to TCRS was equal to SOUTH FULTON, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SOUTH FULTON, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FAYETTEVILLE LINCOLN CO LIBRARY
88360

Plan Description

Employees of FAYETTEVILLE LINCOLN CO LIBRARY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FAYETTEVILLE LINCOLN CO LIBRARY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FAYETTEVILLE LINCOLN CO LIBRARY requires employees to contribute 5.0 percent of earnable compensation.

FAYETTEVILLE LINCOLN CO LIBRARY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.96% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FAYETTEVILLE LINCOLN CO LIBRARY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FAYETTEVILLE LINCOLN CO LIBRARY's annual pension cost of $2,772 to TCRS was equal to FAYETTEVILLE LINCOLN CO LIBRARY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FAYETTEVILLE LINCOLN CO LIBRARY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

PIKEVILLE
88370

Plan Description

Employees of PIKEVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as PIKEVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

PIKEVILLE requires employees to contribute 5.0 percent of earnable compensation.

PIKEVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.81% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for PIKEVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, PIKEVILLE's annual pension cost of $49,030 to TCRS was equal to PIKEVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. PIKEVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WASHINGTON COUNTY 911
88380

Plan Description

Employees of WASHINGTON COUNTY 911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WASHINGTON COUNTY 911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WASHINGTON COUNTY 911 has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WASHINGTON COUNTY 911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.05% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WASHINGTON COUNTY 911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WASHINGTON COUNTY 911's annual pension cost of $190,421 to TCRS was equal to WASHINGTON COUNTY 911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WASHINGTON COUNTY 911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 10 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SMITH UTILITY DISTRICT
88390

Plan Description

Employees of SMITH UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SMITH UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SMITH UTILITY DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SMITH UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.50% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SMITH UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SMITH UTILITY DISTRICT's annual pension cost of $59,563 to TCRS was equal to SMITH UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SMITH UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GIBSON COUNTY E-911
88409

Plan Description

Employees of GIBSON COUNTY E-911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GIBSON COUNTY E-911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GIBSON COUNTY E-911 has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

GIBSON COUNTY E-911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.79% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GIBSON COUNTY E-911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GIBSON COUNTY E-911's annual pension cost of $33,345 to TCRS was equal to GIBSON COUNTY E-911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GIBSON COUNTY E-911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GIBSON COUNTY E-911 88409

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$33,345	100.00%	$0.00
June 30, 2012	$35,046	100.00%	$0.00
June 30, 2011	$33,017	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 94.06 percent funded. The actuarial accrued liability for benefits was 0.76 million, and the actuarial value of assets was $0.72 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.05 million. The covered payroll (annual payroll of active employees covered by the plan) $0.29 million, and the ratio of the UAAL to the covered payroll was 15.50 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

SULLIVAN COUNTY 911 EMERG COMM DIST
88410

Plan Description

Employees of SULLIVAN COUNTY 911 EMERG COMM DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SULLIVAN COUNTY 911 EMERG COMM DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SULLIVAN COUNTY 911 EMERG COMM DIST has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SULLIVAN COUNTY 911 EMERG COMM DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.75% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SULLIVAN COUNTY 911 EMERG COMM DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SULLIVAN COUNTY 911 EMERG COMM DIST's annual pension cost of $22,566 to TCRS was equal to SULLIVAN COUNTY 911 EMERG COMM DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SULLIVAN COUNTY 911 EMERG COMM DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MUNFORD
88420

Plan Description

Employees of MUNFORD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MUNFORD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MUNFORD requires employees to contribute 5.0 percent of earnable compensation.

MUNFORD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.19% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MUNFORD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MUNFORD's annual pension cost of $111,419 to TCRS was equal to MUNFORD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MUNFORD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Plan Description

Employees of MCKENZIE SPEC SCHOOL DIST GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MCKENZIE SPEC SCHOOL DIST GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MCKENZIE SPEC SCHOOL DIST GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

MCKENZIE SPEC SCHOOL DIST GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.91% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MCKENZIE SPEC SCHOOL DIST GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MCKENZIE SPEC SCHOOL DIST GENERAL FUND's annual pension cost of $55,276 to TCRS was equal to MCKENZIE SPEC SCHOOL DIST GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MCKENZIE SPEC SCHOOL DIST GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TELLICO AREA SERVICE SYSTEM
88440

Plan Description

Employees of TELLICO AREA SERVICE SYSTEM are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TELLICO AREA SERVICE SYSTEM participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TELLICO AREA SERVICE SYSTEM requires employees to contribute 5.0 percent of earnable compensation.

TELLICO AREA SERVICE SYSTEM is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.91% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TELLICO AREA SERVICE SYSTEM is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TELLICO AREA SERVICE SYSTEM's annual pension cost of $56,259 to TCRS was equal to TELLICO AREA SERVICE SYSTEM's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TELLICO AREA SERVICE SYSTEM's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

RHEA COUNTY GENERAL FUND
88470

Plan Description

Employees of RHEA COUNTY GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as RHEA COUNTY GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

RHEA COUNTY GENERAL FUND withdrew from TCRS effective July 1, 2012. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

RHEA COUNTY GENERAL FUND requires employees to contribute 5.0 percent of earnable compensation.

RHEA COUNTY GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.82% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for RHEA COUNTY GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, RHEA COUNTY GENERAL FUND's annual pension cost of $1,291,561 to TCRS was equal to RHEA COUNTY GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. RHEA COUNTY GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FRIENDSVILLE
88480

Plan Description

Employees of FRIENDSVILLE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FRIENDSVILLE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FRIENDSVILLE requires employees to contribute 5.0 percent of earnable compensation.

FRIENDSVILLE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 1.04% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FRIENDSVILLE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FRIENDSVILLE's annual pension cost of $1,091 to TCRS was equal to FRIENDSVILLE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FRIENDSVILLE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FIRST TENNESSEE HUMAN RESOURCE AGENCY
88490

Plan Description

Employees of FIRST TENNESSEE HUMAN RESOURCE AGENCY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FIRST TENNESSEE HUMAN RESOURCE AGENCY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FIRST TENNESSEE HUMAN RESOURCE AGENCY has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

FIRST TENNESSEE HUMAN RESOURCE AGENCY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.10% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FIRST TENNESSEE HUMAN RESOURCE AGENCY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FIRST TENNESSEE HUMAN RESOURCE AGENCY's annual pension cost of $330,795 to TCRS was equal to FIRST TENNESSEE HUMAN RESOURCE AGENCY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FIRST TENNESSEE HUMAN RESOURCE AGENCY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TN ORGANIZATION OF SCHOOL SUPERINTENDENT
88491

Plan Description

Employees of TN ORGANIZATION OF SCHOOL SUPERINTENDENT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TN ORGANIZATION OF SCHOOL SUPERINTENDENT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

TN ORGANIZATION OF SCHOOL SUPERINTENDENT withdrew from TCRS effective July 1, 2007. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TN ORGANIZATION OF SCHOOL SUPERINTENDENT requires employees to contribute 5.0 percent of earnable compensation.

TN ORGANIZATION OF SCHOOL SUPERINTENDENT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 35.33% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TN ORGANIZATION OF SCHOOL SUPERINTENDENT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TN ORGANIZATION OF SCHOOL SUPERINTENDENT's annual pension cost of $14,639 to TCRS was equal to TN ORGANIZATION OF SCHOOL SUPERINTENDENT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TN ORGANIZATION OF SCHOOL SUPERINTENDENT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 16 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ROBERTSON CO 911 EMERG COMM DIST
88492

Plan Description

Employees of ROBERTSON CO 911 EMERG COMM DIST are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ROBERTSON CO 911 EMERG COMM DIST participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ROBERTSON CO 911 EMERG COMM DIST has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

ROBERTSON CO 911 EMERG COMM DIST is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.66% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ROBERTSON CO 911 EMERG COMM DIST is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ROBERTSON CO 911 EMERG COMM DIST's annual pension cost of $18,408 to TCRS was equal to ROBERTSON CO 911 EMERG COMM DIST's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ROBERTSON CO 911 EMERG COMM DIST's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Funding Policy

KINGSTON CITY JUDGES requires employees to contribute 5.0 percent of earnable compensation.

KINGSTON CITY JUDGES is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for KINGSTON CITY JUDGES is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, KINGSTON CITY JUDGES's annual pension cost of $0 to TCRS was equal to KINGSTON CITY JUDGES's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. KINGSTON CITY JUDGES's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 0 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HARRIMAN
88500

Plan Description

Employees of HARRIMAN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HARRIMAN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HARRIMAN requires employees to contribute 5.0 percent of earnable compensation.

HARRIMAN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 23.36% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HARRIMAN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HARRIMAN's annual pension cost of $421,582 to TCRS was equal to HARRIMAN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HARRIMAN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 20 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GLEN HILLS UTILITY DISTRICT
88510

Plan Description

Employees of GLEN HILLS UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GLEN HILLS UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GLEN HILLS UTILITY DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

GLEN HILLS UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.32% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GLEN HILLS UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GLEN HILLS UTILITY DISTRICT's annual pension cost of $57,770 to TCRS was equal to GLEN HILLS UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GLEN HILLS UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HAMILTON COUNTY 911 ECD
88520

Plan Description

Employees of HAMILTON COUNTY 911 ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HAMILTON COUNTY 911 ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HAMILTON COUNTY 911 ECD has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

HAMILTON COUNTY 911 ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.72% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HAMILTON COUNTY 911 ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HAMILTON COUNTY 911 ECD's annual pension cost of $405,474 to TCRS was equal to HAMILTON COUNTY 911 ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HAMILTON COUNTY 911 ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HAMBLEN COUNTY 911 ECD
88540

Plan Description

Employees of HAMBLEN COUNTY 911 ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HAMBLEN COUNTY 911 ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HAMBLEN COUNTY 911 ECD requires employees to contribute 5.0 percent of earnable compensation.

HAMBLEN COUNTY 911 ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.47% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HAMBLEN COUNTY 911 ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HAMBLEN COUNTY 911 ECD's annual pension cost of $36,997 to TCRS was equal to HAMBLEN COUNTY 911 ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HAMBLEN COUNTY 911 ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HAMBLEN COUNTY 911 ECD 88540

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$36,997	100.00%	$0.00
June 30, 2012	$39,238	100.00%	$0.00
June 30, 2011	$42,508	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 95.65 percent funded. The actuarial accrued liability for benefits was 1.12 million, and the actuarial value of assets was $1.07 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.05 million. The covered payroll (annual payroll of active employees covered by the plan) $0.56 million, and the ratio of the UAAL to the covered payroll was 8.76 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

RUTHERFORD COUNTY 911 ECD
88550

Plan Description

Employees of RUTHERFORD COUNTY 911 ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as RUTHERFORD COUNTY 911 ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

RUTHERFORD COUNTY 911 ECD has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

RUTHERFORD COUNTY 911 ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.09% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for RUTHERFORD COUNTY 911 ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, RUTHERFORD COUNTY 911 ECD's annual pension cost of $23,019 to TCRS was equal to RUTHERFORD COUNTY 911 ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. RUTHERFORD COUNTY 911 ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 10 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GREENE COUNTY 911 ECD
88560

Plan Description

Employees of GREENE COUNTY 911 ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GREENE COUNTY 911 ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GREENE COUNTY 911 ECD requires employees to contribute 5.0 percent of earnable compensation.

GREENE COUNTY 911 ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.83% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GREENE COUNTY 911 ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GREENE COUNTY 911 ECD's annual pension cost of $35,326 to TCRS was equal to GREENE COUNTY 911 ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GREENE COUNTY 911 ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SODDY-DAISY
88580

Plan Description

Employees of SODDY-DAISY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. SODDY-DAISY has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SODDY-DAISY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SODDY-DAISY requires employees to contribute 5.0 percent of earnable compensation.

SODDY-DAISY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.28% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SODDY-DAISY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SODDY-DAISY's annual pension cost of $293,685 to TCRS was equal to SODDY-DAISY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SODDY-DAISY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HARTSVILLE HOUSING AUTHORITY
88590

Plan Description

Employees of HARTSVILLE HOUSING AUTHORITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HARTSVILLE HOUSING AUTHORITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HARTSVILLE HOUSING AUTHORITY requires employees to contribute 5.0 percent of earnable compensation.

HARTSVILLE HOUSING AUTHORITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.18% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HARTSVILLE HOUSING AUTHORITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HARTSVILLE HOUSING AUTHORITY's annual pension cost of $12,667 to TCRS was equal to HARTSVILLE HOUSING AUTHORITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HARTSVILLE HOUSING AUTHORITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TENNESSEE MUNICIPAL LEAGUE POOL
88600

Plan Description

Employees of TENNESSEE MUNICIPAL LEAGUE POOL are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENNESSEE MUNICIPAL LEAGUE POOL participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENNESSEE MUNICIPAL LEAGUE POOL has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TENNESSEE MUNICIPAL LEAGUE POOL is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.42% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENNESSEE MUNICIPAL LEAGUE POOL is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENNESSEE MUNICIPAL LEAGUE POOL's annual pension cost of $366,583 to TCRS was equal to TENNESSEE MUNICIPAL LEAGUE POOL's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENNESSEE MUNICIPAL LEAGUE POOL's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 10 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SOUTHEAST TENNESSEE DEVELOPMENT DISTRICT
88610

Plan Description

Employees of SOUTHEAST TENNESSEE DEVELOPMENT DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SOUTHEAST TENNESSEE DEVELOPMENT DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SOUTHEAST TENNESSEE DEVELOPMENT DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SOUTHEAST TENNESSEE DEVELOPMENT DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 18.27% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SOUTHEAST TENNESSEE DEVELOPMENT DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SOUTHEAST TENNESSEE DEVELOPMENT DISTRICT's annual pension cost of $679,550 to TCRS was equal to SOUTHEAST TENNESSEE DEVELOPMENT DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SOUTHEAST TENNESSEE DEVELOPMENT DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

FIRST TENNESSEE DEVELOPMENT DISTRICT
88620

Plan Description

Employees of FIRST TENNESSEE DEVELOPMENT DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FIRST TENNESSEE DEVELOPMENT DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FIRST TENNESSEE DEVELOPMENT DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

FIRST TENNESSEE DEVELOPMENT DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.46% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FIRST TENNESSEE DEVELOPMENT DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FIRST TENNESSEE DEVELOPMENT DISTRICT's annual pension cost of $273,041 to TCRS was equal to FIRST TENNESSEE DEVELOPMENT DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FIRST TENNESSEE DEVELOPMENT DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MONTGOMERY COUNTY 911 ECD
88630

Plan Description

Employees of MONTGOMERY COUNTY 911 ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MONTGOMERY COUNTY 911 ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MONTGOMERY COUNTY 911 ECD has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

MONTGOMERY COUNTY 911 ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.01% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MONTGOMERY COUNTY 911 ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MONTGOMERY COUNTY 911 ECD's annual pension cost of $131,080 to TCRS was equal to MONTGOMERY COUNTY 911 ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MONTGOMERY COUNTY 911 ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SEVIER SOLID WASTE
88640

Plan Description

Employees of SEVIER SOLID WASTE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SEVIER SOLID WASTE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SEVIER SOLID WASTE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SEVIER SOLID WASTE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 14.29% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SEVIER SOLID WASTE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SEVIER SOLID WASTE's annual pension cost of $96,170 to TCRS was equal to SEVIER SOLID WASTE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SEVIER SOLID WASTE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SEVIER SOLID WASTE 88640

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$96,170	100.00%	$0.00
June 30, 2012	$85,543	100.00%	$0.00
June 30, 2011	$99,426	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 95.40 percent funded. The actuarial accrued liability for benefits was 1.15 million, and the actuarial value of assets was $1.10 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.05 million. The covered payroll (annual payroll of active employees covered by the plan) $0.74 million, and the ratio of the UAAL to the covered payroll was 7.10 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

ASSOCIATION OF COUNTY MAYORS
88650

Plan Description

Employees of ASSOCIATION OF COUNTY MAYORS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ASSOCIATION OF COUNTY MAYORS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ASSOCIATION OF COUNTY MAYORS has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

ASSOCIATION OF COUNTY MAYORS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ASSOCIATION OF COUNTY MAYORS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ASSOCIATION OF COUNTY MAYORS's annual pension cost of $0 to TCRS was equal to ASSOCIATION OF COUNTY MAYORS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ASSOCIATION OF COUNTY MAYORS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 14 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LAWRENCE COUNTY PUBLIC LIBRARY
88660

Plan Description

Employees of LAWRENCE COUNTY PUBLIC LIBRARY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LAWRENCE COUNTY PUBLIC LIBRARY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LAWRENCE COUNTY PUBLIC LIBRARY requires employees to contribute 5.0 percent of earnable compensation.

LAWRENCE COUNTY PUBLIC LIBRARY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LAWRENCE COUNTY PUBLIC LIBRARY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LAWRENCE COUNTY PUBLIC LIBRARY's annual pension cost of $0 to TCRS was equal to LAWRENCE COUNTY PUBLIC LIBRARY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LAWRENCE COUNTY PUBLIC LIBRARY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TIPTON COUNTY GENERAL
88700

Plan Description

Employees of TIPTON COUNTY GENERAL are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TIPTON COUNTY GENERAL participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TIPTON COUNTY GENERAL requires employees to contribute 5.0 percent of earnable compensation.

TIPTON COUNTY GENERAL is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.71% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TIPTON COUNTY GENERAL is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TIPTON COUNTY GENERAL's annual pension cost of $1,732,517 to TCRS was equal to TIPTON COUNTY GENERAL's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TIPTON COUNTY GENERAL's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SIGNAL MOUNTAIN
88710

Plan Description

Employees of SIGNAL MOUNTAIN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. SIGNAL MOUNTAIN has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SIGNAL MOUNTAIN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SIGNAL MOUNTAIN requires employees to contribute 5.0 percent of earnable compensation.

SIGNAL MOUNTAIN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.28% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SIGNAL MOUNTAIN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SIGNAL MOUNTAIN's annual pension cost of $249,733 to TCRS was equal to SIGNAL MOUNTAIN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SIGNAL MOUNTAIN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 11 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GLADEVILLE UTILITY DISTRICT
88730

Plan Description

Employees of GLADEVILLE UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GLADEVILLE UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GLADEVILLE UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

GLADEVILLE UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.35% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GLADEVILLE UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GLADEVILLE UTILITY DISTRICT's annual pension cost of $103,272 to TCRS was equal to GLADEVILLE UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GLADEVILLE UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GREENBRIER, TOWN OF
88740

Plan Description

Employees of GREENBRIER, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GREENBRIER, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GREENBRIER, TOWN OF has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

GREENBRIER, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.59% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GREENBRIER, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GREENBRIER, TOWN OF's annual pension cost of $122,364 to TCRS was equal to GREENBRIER, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GREENBRIER, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SODDY DAISY UTILITY DISTRICT
88750

Plan Description

Employees of SODDY DAISY UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SODDY DAISY UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SODDY DAISY UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

SODDY DAISY UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.29% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SODDY DAISY UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SODDY DAISY UTILITY DISTRICT's annual pension cost of $39,035 to TCRS was equal to SODDY DAISY UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SODDY DAISY UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Plan Description

Employees of HARDIN COUNTY COURTHOUSE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HARDIN COUNTY COURTHOUSE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HARDIN COUNTY COURTHOUSE requires employees to contribute 5.0 percent of earnable compensation.

HARDIN COUNTY COURTHOUSE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.53% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HARDIN COUNTY COURTHOUSE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HARDIN COUNTY COURTHOUSE's annual pension cost of $818,683 to TCRS was equal to HARDIN COUNTY COURTHOUSE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HARDIN COUNTY COURTHOUSE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HARDIN COUNTY COURTHOUSE 88800

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$818,683	100.00%	$0.00
June 30, 2012	$743,375	100.00%	$0.00
June 30, 2011	$740,026	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 91.42 percent funded. The actuarial accrued liability for benefits was 20.28 million, and the actuarial value of assets was $18.54 million, resulting in an unfunded actuarial accrued liability (UAAL) of $1.74 million. The covered payroll (annual payroll of active employees covered by the plan) $7.45 million, and the ratio of the UAAL to the covered payroll was 23.35 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

SOUTHEAST TN HUMAN RESOURCE AGENCY
88810

Plan Description

Employees of SOUTHEAST TN HUMAN RESOURCE AGENCY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SOUTHEAST TN HUMAN RESOURCE AGENCY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SOUTHEAST TN HUMAN RESOURCE AGENCY requires employees to contribute 5.0 percent of earnable compensation.

SOUTHEAST TN HUMAN RESOURCE AGENCY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.47% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SOUTHEAST TN HUMAN RESOURCE AGENCY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SOUTHEAST TN HUMAN RESOURCE AGENCY's annual pension cost of $214,184 to TCRS was equal to SOUTHEAST TN HUMAN RESOURCE AGENCY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SOUTHEAST TN HUMAN RESOURCE AGENCY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SPRING HILL TOWN OF
88820

Plan Description

Employees of SPRING HILL TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SPRING HILL TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SPRING HILL TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

SPRING HILL TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.41% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SPRING HILL TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SPRING HILL TOWN OF's annual pension cost of $365,455 to TCRS was equal to SPRING HILL TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SPRING HILL TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 14 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

COLLIERVILLE, TOWN OF
88860

Plan Description

Employees of COLLIERVILLE, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as COLLIERVILLE, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

COLLIERVILLE, TOWN OF withdrew from TCRS effective July 1, 2007. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

COLLIERVILLE, TOWN OF has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

COLLIERVILLE, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for COLLIERVILLE, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, COLLIERVILLE, TOWN OF's annual pension cost of $0 to TCRS was equal to COLLIERVILLE, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. COLLIERVILLE, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CLARKSVILLE GENERAL FUND
88900

Plan Description

Employees of CLARKSVILLE GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. CLARKSVILLE GENERAL FUND has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CLARKSVILLE GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CLARKSVILLE GENERAL FUND has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

CLARKSVILLE GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.42% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CLARKSVILLE GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CLARKSVILLE GENERAL FUND's annual pension cost of $7,061,753 to TCRS was equal to CLARKSVILLE GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CLARKSVILLE GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 17 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

June 30, 2013	$7,061,753	100.00%	$0.00
June 30, 2012	$6,865,720	100.00%	$0.00
June 30, 2011	$6,655,681	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 77.89 percent funded. The actuarial accrued liability for benefits was 137.06 million, and the actuarial value of assets was $106.75 million, resulting in an unfunded actuarial accrued liability (UAAL) of $30.31 million. The covered payroll (annual payroll of active employees covered by the plan) $43.35 million, and the ratio of the UAAL to the covered payroll was 69.91 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

DELTA HUMAN RESOURCE AGENCY
88910

Plan Description

Employees of DELTA HUMAN RESOURCE AGENCY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DELTA HUMAN RESOURCE AGENCY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DELTA HUMAN RESOURCE AGENCY requires employees to contribute 5.0 percent of earnable compensation.

DELTA HUMAN RESOURCE AGENCY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.89% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DELTA HUMAN RESOURCE AGENCY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DELTA HUMAN RESOURCE AGENCY's annual pension cost of $137,839 to TCRS was equal to DELTA HUMAN RESOURCE AGENCY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DELTA HUMAN RESOURCE AGENCY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WILSON COUNTY ECD E 911
88920

Plan Description

Employees of WILSON COUNTY ECD E 911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WILSON COUNTY ECD E 911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WILSON COUNTY ECD E 911 has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WILSON COUNTY ECD E 911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 11.53% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WILSON COUNTY ECD E 911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WILSON COUNTY ECD E 911's annual pension cost of $39,174 to TCRS was equal to WILSON COUNTY ECD E 911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WILSON COUNTY ECD E 911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

PURYEAR, CITY OF
88960

Plan Description

Employees of PURYEAR, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as PURYEAR, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

PURYEAR, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

PURYEAR, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 16.07% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for PURYEAR, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, PURYEAR, CITY OF's annual pension cost of $26,405 to TCRS was equal to PURYEAR, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. PURYEAR, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WEAKLEY COUNTY EMERGENCY 911 DISTRICT
88970

Plan Description

Employees of WEAKLEY COUNTY EMERGENCY 911 DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WEAKLEY COUNTY EMERGENCY 911 DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WEAKLEY COUNTY EMERGENCY 911 DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WEAKLEY COUNTY EMERGENCY 911 DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 23.55% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WEAKLEY COUNTY EMERGENCY 911 DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WEAKLEY COUNTY EMERGENCY 911 DISTRICT's annual pension cost of $10,329 to TCRS was equal to WEAKLEY COUNTY EMERGENCY 911 DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WEAKLEY COUNTY EMERGENCY 911 DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MACON COUNTY
88990

Plan Description

Employees of MACON COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MACON COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MACON COUNTY requires employees to contribute 5.0 percent of earnable compensation.

MACON COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.57% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MACON COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MACON COUNTY's annual pension cost of $561,699 to TCRS was equal to MACON COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MACON COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SOUTH CARTHAGE, TOWN OF
89020

Plan Description

Employees of SOUTH CARTHAGE, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SOUTH CARTHAGE, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SOUTH CARTHAGE, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

SOUTH CARTHAGE, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.81% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SOUTH CARTHAGE, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SOUTH CARTHAGE, TOWN OF's annual pension cost of $27,128 to TCRS was equal to SOUTH CARTHAGE, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SOUTH CARTHAGE, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

LAWRENCE COUNTY EMERGENCY 911
89030

Plan Description

Employees of LAWRENCE COUNTY EMERGENCY 911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LAWRENCE COUNTY EMERGENCY 911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LAWRENCE COUNTY EMERGENCY 911 requires employees to contribute 5.0 percent of earnable compensation.

LAWRENCE COUNTY EMERGENCY 911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.66% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LAWRENCE COUNTY EMERGENCY 911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LAWRENCE COUNTY EMERGENCY 911's annual pension cost of $50,260 to TCRS was equal to LAWRENCE COUNTY EMERGENCY 911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LAWRENCE COUNTY EMERGENCY 911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SEVIERVILLE, CITY OF
89070

Plan Description

Employees of SEVIERVILLE, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SEVIERVILLE, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SEVIERVILLE, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

SEVIERVILLE, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.85% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SEVIERVILLE, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SEVIERVILLE, CITY OF's annual pension cost of $830,303 to TCRS was equal to SEVIERVILLE, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SEVIERVILLE, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SEVIERVILLE, CITY OF 89070

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$830,303	100.00%	$0.00
June 30, 2012	$804,664	100.00%	$0.00
June 30, 2011	$839,689	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 96.24 percent funded. The actuarial accrued liability for benefits was 16.63 million, and the actuarial value of assets was $16.00 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.63 million. The covered payroll (annual payroll of active employees covered by the plan) $9.71 million, and the ratio of the UAAL to the covered payroll was 6.45 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

KENTON, TOWN OF
89080

Plan Description

Employees of KENTON, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as KENTON, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

KENTON, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

KENTON, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.73% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for KENTON, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, KENTON, TOWN OF's annual pension cost of $13,524 to TCRS was equal to KENTON, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. KENTON, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TN ASSOCIATION OF ASSESSING OFFICERS
89100

Plan Description

Employees of TN ASSOCIATION OF ASSESSING OFFICERS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TN ASSOCIATION OF ASSESSING OFFICERS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TN ASSOCIATION OF ASSESSING OFFICERS has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TN ASSOCIATION OF ASSESSING OFFICERS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.59% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TN ASSOCIATION OF ASSESSING OFFICERS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TN ASSOCIATION OF ASSESSING OFFICERS's annual pension cost of $16,048 to TCRS was equal to TN ASSOCIATION OF ASSESSING OFFICERS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TN ASSOCIATION OF ASSESSING OFFICERS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 16 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

RUTLEDGE, CITY OF
89120

Plan Description

Employees of RUTLEDGE, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as RUTLEDGE, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

RUTLEDGE, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

RUTLEDGE, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.06% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for RUTLEDGE, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, RUTLEDGE, CITY OF's annual pension cost of $21,658 to TCRS was equal to RUTLEDGE, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. RUTLEDGE, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

RUTLEDGE, CITY OF 89120

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$21,658	100.00%	$0.00
June 30, 2012	$19,687	100.00%	$0.00
June 30, 2011	$18,885	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 89.96 percent funded. The actuarial accrued liability for benefits was 0.42 million, and the actuarial value of assets was $0.38 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.04 million. The covered payroll (annual payroll of active employees covered by the plan) $0.27 million, and the ratio of the UAAL to the covered payroll was 15.53 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

CLEVELAND/BRADLEY CO E-911
89140

Plan Description

Employees of CLEVELAND/BRADLEY CO E-911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CLEVELAND/BRADLEY CO E-911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CLEVELAND/BRADLEY CO E-911 has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

CLEVELAND/BRADLEY CO E-911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.77% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CLEVELAND/BRADLEY CO E-911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CLEVELAND/BRADLEY CO E-911's annual pension cost of $136,420 to TCRS was equal to CLEVELAND/BRADLEY CO E-911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CLEVELAND/BRADLEY CO E-911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM
89180

Plan Description

Employees of WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM requires employees to contribute 5.0 percent of earnable compensation.

WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 18.80% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM's annual pension cost of $513,710 to TCRS was equal to WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 15 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM-DB PLAN 2
89181

Plan Description

Employees of WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM-DB PLAN 2 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM-DB PLAN 2 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM-DB PLAN 2 requires employees to contribute 5.0 percent of earnable compensation.

WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM-DB PLAN 2 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 2.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM-DB PLAN 2 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM-DB PLAN 2's annual pension cost of $432 to TCRS was equal to WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM-DB PLAN 2's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WEAKLEY CO MUNICIPAL ELECTRIC SYSTEM-DB PLAN 2's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 0 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DICKSON, CITY OF GENERAL FUND
89190

Plan Description

Employees of DICKSON, CITY OF GENERAL FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. DICKSON, CITY OF GENERAL FUND has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DICKSON, CITY OF GENERAL FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DICKSON, CITY OF GENERAL FUND has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

DICKSON, CITY OF GENERAL FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 19.77% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DICKSON, CITY OF GENERAL FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DICKSON, CITY OF GENERAL FUND's annual pension cost of $1,298,256 to TCRS was equal to DICKSON, CITY OF GENERAL FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DICKSON, CITY OF GENERAL FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 13 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MAYNARDVILLE, TOWN OF
89210

Plan Description

Employees of MAYNARDVILLE, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MAYNARDVILLE, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MAYNARDVILLE, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

MAYNARDVILLE, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.21% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MAYNARDVILLE, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MAYNARDVILLE, TOWN OF's annual pension cost of $28,016 to TCRS was equal to MAYNARDVILLE, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MAYNARDVILLE, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DICKSON COUNTY
89220

Plan Description

Employees of DICKSON COUNTY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DICKSON COUNTY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DICKSON COUNTY requires employees to contribute 5.0 percent of earnable compensation.

DICKSON COUNTY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.58% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DICKSON COUNTY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DICKSON COUNTY's annual pension cost of $1,311,817 to TCRS was equal to DICKSON COUNTY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DICKSON COUNTY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DICKSON COUNTY 89220

Plan Description

Employees of TIPTON COUNTY ECD are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TIPTON COUNTY ECD participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TIPTON COUNTY ECD has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TIPTON COUNTY ECD is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.06% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TIPTON COUNTY ECD is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TIPTON COUNTY ECD's annual pension cost of $43,897 to TCRS was equal to TIPTON COUNTY ECD's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TIPTON COUNTY ECD's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TIPTON COUNTY ECD 89280

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$43,897	100.00%	$0.00
June 30, 2012	$50,836	100.00%	$0.00
June 30, 2011	$49,301	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 96.81 percent funded. The actuarial accrued liability for benefits was 0.58 million, and the actuarial value of assets was $0.56 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.02 million. The covered payroll (annual payroll of active employees covered by the plan) $0.55 million, and the ratio of the UAAL to the covered payroll was 3.34 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

LAWRENCEBURG HOUSING AUTHORITY
89290

Plan Description

Employees of LAWRENCEBURG HOUSING AUTHORITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LAWRENCEBURG HOUSING AUTHORITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LAWRENCEBURG HOUSING AUTHORITY requires employees to contribute 5.0 percent of earnable compensation.

LAWRENCEBURG HOUSING AUTHORITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.48% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LAWRENCEBURG HOUSING AUTHORITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LAWRENCEBURG HOUSING AUTHORITY's annual pension cost of $47,320 to TCRS was equal to LAWRENCEBURG HOUSING AUTHORITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LAWRENCEBURG HOUSING AUTHORITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BENTON
89300

Plan Description

Employees of BENTON are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BENTON participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BENTON requires employees to contribute 5.0 percent of earnable compensation.

BENTON is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.46% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BENTON is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BENTON's annual pension cost of $50,043 to TCRS was equal to BENTON's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BENTON's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MARTIN
89330

Plan Description

Employees of MARTIN are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. MARTIN has authorized Mandatory Retirement for its Public Safety Officers. Public Safety Officers can retiree at age 55 with five years of service or at any age with 25 years of service and receive a supplemental bridge payment between the mandatory retirement age and 62. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MARTIN participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MARTIN requires employees to contribute 5.0 percent of earnable compensation.

MARTIN is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.61% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MARTIN is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MARTIN's annual pension cost of $456,922 to TCRS was equal to MARTIN's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MARTIN's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 13 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SNEEDVILLE UTILITY DISTRICT
89340

Plan Description

Employees of SNEEDVILLE UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SNEEDVILLE UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SNEEDVILLE UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

SNEEDVILLE UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.70% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SNEEDVILLE UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SNEEDVILLE UTILITY DISTRICT's annual pension cost of $16,117 to TCRS was equal to SNEEDVILLE UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SNEEDVILLE UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

89380

Plan Description

Employees of KNOXVILLE CITY JDGS/ATTNYS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as KNOXVILLE CITY JDGS/ATTNYS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

KNOXVILLE CITY JDGS/ATTNYS requires employees to contribute 5.0 percent of earnable compensation.

KNOXVILLE CITY JDGS/ATTNYS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for KNOXVILLE CITY JDGS/ATTNYS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, KNOXVILLE CITY JDGS/ATTNYS's annual pension cost of $0 to TCRS was equal to KNOXVILLE CITY JDGS/ATTNYS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. KNOXVILLE CITY JDGS/ATTNYS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

KNOXVILLE CITY JDGS/ATTNYS 89380

SOUTH CARROLL SPECIAL SCHOOL DISTRICT
89400

Plan Description

Employees of SOUTH CARROLL SPECIAL SCHOOL DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SOUTH CARROLL SPECIAL SCHOOL DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SOUTH CARROLL SPECIAL SCHOOL DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

SOUTH CARROLL SPECIAL SCHOOL DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 4.58% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SOUTH CARROLL SPECIAL SCHOOL DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SOUTH CARROLL SPECIAL SCHOOL DISTRICT's annual pension cost of $12,167 to TCRS was equal to SOUTH CARROLL SPECIAL SCHOOL DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SOUTH CARROLL SPECIAL SCHOOL DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MILLERSVILLE, CITY OF
89440

Plan Description

Employees of MILLERSVILLE, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MILLERSVILLE, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MILLERSVILLE, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

MILLERSVILLE, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.08% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MILLERSVILLE, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MILLERSVILLE, CITY OF's annual pension cost of $64,429 to TCRS was equal to MILLERSVILLE, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MILLERSVILLE, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MILLERSVILLE, CITY OF 89440

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$64,429	100.00%	$0.00
June 30, 2012	$61,707	100.00%	$0.00
June 30, 2011	$58,303	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 95.51 percent funded. The actuarial accrued liability for benefits was 1.21 million, and the actuarial value of assets was $1.15 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.05 million. The covered payroll (annual payroll of active employees covered by the plan) $1.17 million, and the ratio of the UAAL to the covered payroll was 4.63 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

SPRING CITY
89450

Plan Description

Employees of SPRING CITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SPRING CITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SPRING CITY requires employees to contribute 5.0 percent of earnable compensation.

SPRING CITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.98% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SPRING CITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SPRING CITY's annual pension cost of $75,471 to TCRS was equal to SPRING CITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SPRING CITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TENNESSEE MUNICIPAL BOND FUND
89460

Plan Description

Employees of TENNESSEE MUNICIPAL BOND FUND are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENNESSEE MUNICIPAL BOND FUND participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENNESSEE MUNICIPAL BOND FUND has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TENNESSEE MUNICIPAL BOND FUND is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENNESSEE MUNICIPAL BOND FUND is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENNESSEE MUNICIPAL BOND FUND's annual pension cost of $34,242 to TCRS was equal to TENNESSEE MUNICIPAL BOND FUND's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENNESSEE MUNICIPAL BOND FUND's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MOSCOW, TOWN OF
89500

Plan Description

Employees of MOSCOW, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as MOSCOW, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

MOSCOW, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

MOSCOW, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.01% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for MOSCOW, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, MOSCOW, TOWN OF's annual pension cost of $23,920 to TCRS was equal to MOSCOW, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. MOSCOW, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

MOSCOW, TOWN OF 89500

COOKEVILLE REGIONAL MEDICAL CENTER AUTHO
89530

Plan Description

Employees of COOKEVILLE REGIONAL MEDICAL CENTER AUTHO are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as COOKEVILLE REGIONAL MEDICAL CENTER AUTHO participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

COOKEVILLE REGIONAL MEDICAL CENTER AUTHO withdrew from TCRS effective July 1, 2006. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

COOKEVILLE REGIONAL MEDICAL CENTER AUTHO has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

COOKEVILLE REGIONAL MEDICAL CENTER AUTHO is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.77% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for COOKEVILLE REGIONAL MEDICAL CENTER AUTHO is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, COOKEVILLE REGIONAL MEDICAL CENTER AUTHO's annual pension cost of $3,327,283 to TCRS was equal to COOKEVILLE REGIONAL MEDICAL CENTER AUTHO's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. COOKEVILLE REGIONAL MEDICAL CENTER AUTHO's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 15 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Plan Description

Employees of ATOKA, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ATOKA, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ATOKA, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

ATOKA, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.30% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ATOKA, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ATOKA, TOWN OF's annual pension cost of $91,862 to TCRS was equal to ATOKA, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ATOKA, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 7 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 82.45 percent funded. The actuarial accrued liability for benefits was 1.30 million, and the actuarial value of assets was $1.07 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.23 million. The covered payroll (annual payroll of active employees covered by the plan) $1.00 million, and the ratio of the UAAL to the covered payroll was 22.90 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

LAUDERDALE COUNTY 911
89550

Plan Description

Employees of LAUDERDALE COUNTY 911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as LAUDERDALE COUNTY 911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

LAUDERDALE COUNTY 911 requires employees to contribute 5.0 percent of earnable compensation.

LAUDERDALE COUNTY 911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 1.54% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for LAUDERDALE COUNTY 911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, LAUDERDALE COUNTY 911's annual pension cost of $1,414 to TCRS was equal to LAUDERDALE COUNTY 911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. LAUDERDALE COUNTY 911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

DOUGLAS CHEROKEE ECONOMIC AUTHORITY
89560

Plan Description

Employees of DOUGLAS CHEROKEE ECONOMIC AUTHORITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as DOUGLAS CHEROKEE ECONOMIC AUTHORITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

DOUGLAS CHEROKEE ECONOMIC AUTHORITY requires employees to contribute 5.0 percent of earnable compensation.

DOUGLAS CHEROKEE ECONOMIC AUTHORITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.85% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for DOUGLAS CHEROKEE ECONOMIC AUTHORITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, DOUGLAS CHEROKEE ECONOMIC AUTHORITY's annual pension cost of $671,760 to TCRS was equal to DOUGLAS CHEROKEE ECONOMIC AUTHORITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. DOUGLAS CHEROKEE ECONOMIC AUTHORITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ALCOA, CITY OF
89570

Plan Description

Employees of ALCOA, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ALCOA, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ALCOA, CITY OF has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

ALCOA, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.94% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ALCOA, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ALCOA, CITY OF's annual pension cost of $1,711,632 to TCRS was equal to ALCOA, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ALCOA, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

TENNESSEE MUNICIPAL LEAGUE
89590

Plan Description

Employees of TENNESSEE MUNICIPAL LEAGUE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as TENNESSEE MUNICIPAL LEAGUE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

TENNESSEE MUNICIPAL LEAGUE has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

TENNESSEE MUNICIPAL LEAGUE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.35% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for TENNESSEE MUNICIPAL LEAGUE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, TENNESSEE MUNICIPAL LEAGUE's annual pension cost of $82,796 to TCRS was equal to TENNESSEE MUNICIPAL LEAGUE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. TENNESSEE MUNICIPAL LEAGUE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 3 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

UPPER EAST TN HUMAN DEVELOPMENT AGENCY
89600

Plan Description

Employees of UPPER EAST TN HUMAN DEVELOPMENT AGENCY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as UPPER EAST TN HUMAN DEVELOPMENT AGENCY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

UPPER EAST TN HUMAN DEVELOPMENT AGENCY requires employees to contribute 5.0 percent of earnable compensation.

UPPER EAST TN HUMAN DEVELOPMENT AGENCY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 7.94% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for UPPER EAST TN HUMAN DEVELOPMENT AGENCY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, UPPER EAST TN HUMAN DEVELOPMENT AGENCY's annual pension cost of $302,928 to TCRS was equal to UPPER EAST TN HUMAN DEVELOPMENT AGENCY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. UPPER EAST TN HUMAN DEVELOPMENT AGENCY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

SOUTHWEST TN DEVELOPMENT DISTRICT
89650

Plan Description

Employees of SOUTHWEST TN DEVELOPMENT DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as SOUTHWEST TN DEVELOPMENT DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

SOUTHWEST TN DEVELOPMENT DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

SOUTHWEST TN DEVELOPMENT DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.21% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for SOUTHWEST TN DEVELOPMENT DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, SOUTHWEST TN DEVELOPMENT DISTRICT's annual pension cost of $167,597 to TCRS was equal to SOUTHWEST TN DEVELOPMENT DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. SOUTHWEST TN DEVELOPMENT DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

UNICOI, TOWN OF
89660

Plan Description

Employees of UNICOI, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as UNICOI, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

UNICOI, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

UNICOI, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 3.54% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for UNICOI, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, UNICOI, TOWN OF's annual pension cost of $3,764 to TCRS was equal to UNICOI, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. UNICOI, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 20 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ELKTON, CITY OF
89680

Plan Description

Employees of ELKTON, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ELKTON, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

ELKTON, CITY OF withdrew from TCRS effective July 1, 2008. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ELKTON, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

ELKTON, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ELKTON, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ELKTON, CITY OF's annual pension cost of $5,148 to TCRS was equal to ELKTON, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ELKTON, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 15 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

GREENFIELD, CITY OF
89710

Plan Description

Employees of GREENFIELD, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as GREENFIELD, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

GREENFIELD, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

GREENFIELD, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 12.34% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for GREENFIELD, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, GREENFIELD, CITY OF's annual pension cost of $69,479 to TCRS was equal to GREENFIELD, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. GREENFIELD, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 10 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

OAKLAND, TOWN OF
89760

Plan Description

Employees of OAKLAND, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as OAKLAND, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

OAKLAND, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

OAKLAND, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 5.05% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for OAKLAND, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, OAKLAND, TOWN OF's annual pension cost of $101,757 to TCRS was equal to OAKLAND, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. OAKLAND, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

OAKLAND, TOWN OF 89760

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$101,757	100.00%	$0.00
June 30, 2012	$100,446	100.00%	$0.00
June 30, 2011	$80,840	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 97.37 percent funded. The actuarial accrued liability for benefits was 1.31 million, and the actuarial value of assets was $1.27 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.03 million. The covered payroll (annual payroll of active employees covered by the plan) $1.30 million, and the ratio of the UAAL to the covered payroll was 2.65 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

WORKFORCE SOLUTIONS
89780

Plan Description

Employees of WORKFORCE SOLUTIONS are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as WORKFORCE SOLUTIONS participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

WORKFORCE SOLUTIONS has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

WORKFORCE SOLUTIONS is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 15.22% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for WORKFORCE SOLUTIONS is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, WORKFORCE SOLUTIONS's annual pension cost of $114,462 to TCRS was equal to WORKFORCE SOLUTIONS's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. WORKFORCE SOLUTIONS's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Plan Description

Employees of HENDERSON COUNTY COURTHOUSE are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HENDERSON COUNTY COURTHOUSE participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HENDERSON COUNTY COURTHOUSE requires employees to contribute 5.0 percent of earnable compensation.

HENDERSON COUNTY COURTHOUSE is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 8.79% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HENDERSON COUNTY COURTHOUSE is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HENDERSON COUNTY COURTHOUSE's annual pension cost of $570,900 to TCRS was equal to HENDERSON COUNTY COURTHOUSE's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HENDERSON COUNTY COURTHOUSE's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 5 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

BIG CREEK UTILITY DISTRICT
89840

Plan Description

Employees of BIG CREEK UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as BIG CREEK UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

BIG CREEK UTILITY DISTRICT has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

BIG CREEK UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.60% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for BIG CREEK UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, BIG CREEK UTILITY DISTRICT's annual pension cost of $42,210 to TCRS was equal to BIG CREEK UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. BIG CREEK UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 4 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

REELFOOT LAKE REGIONAL UTILITY
89860

Plan Description

Employees of REELFOOT LAKE REGIONAL UTILITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as REELFOOT LAKE REGIONAL UTILITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

REELFOOT LAKE REGIONAL UTILITY requires employees to contribute 5.0 percent of earnable compensation.

REELFOOT LAKE REGIONAL UTILITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 23.82% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for REELFOOT LAKE REGIONAL UTILITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, REELFOOT LAKE REGIONAL UTILITY's annual pension cost of $20,515 to TCRS was equal to REELFOOT LAKE REGIONAL UTILITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. REELFOOT LAKE REGIONAL UTILITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 2 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

NEW MARKET UTILITY DISTRICT
89870

Plan Description

Employees of NEW MARKET UTILITY DISTRICT are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as NEW MARKET UTILITY DISTRICT participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

NEW MARKET UTILITY DISTRICT requires employees to contribute 5.0 percent of earnable compensation.

NEW MARKET UTILITY DISTRICT is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 13.05% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for NEW MARKET UTILITY DISTRICT is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, NEW MARKET UTILITY DISTRICT's annual pension cost of $13,507 to TCRS was equal to NEW MARKET UTILITY DISTRICT's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. NEW MARKET UTILITY DISTRICT's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 9 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

ROCKWOOD HOUSING AUTHORITY
89880

Plan Description

Employees of ROCKWOOD HOUSING AUTHORITY are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as ROCKWOOD HOUSING AUTHORITY participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

ROCKWOOD HOUSING AUTHORITY requires employees to contribute 5.0 percent of earnable compensation.

ROCKWOOD HOUSING AUTHORITY is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 6.91% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for ROCKWOOD HOUSING AUTHORITY is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, ROCKWOOD HOUSING AUTHORITY's annual pension cost of $15,955 to TCRS was equal to ROCKWOOD HOUSING AUTHORITY's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. ROCKWOOD HOUSING AUTHORITY's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 8 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HUNTLAND, TOWN OF
89920

Plan Description

Employees of HUNTLAND, TOWN OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as HUNTLAND, TOWN OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

HUNTLAND, TOWN OF requires employees to contribute 5.0 percent of earnable compensation.

HUNTLAND, TOWN OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 10.78% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for HUNTLAND, TOWN OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, HUNTLAND, TOWN OF's annual pension cost of $26,041 to TCRS was equal to HUNTLAND, TOWN OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. HUNTLAND, TOWN OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 6 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

HUNTLAND, TOWN OF 89920

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$26,041	100.00%	$0.00
June 30, 2012	$26,083	100.00%	$0.00
June 30, 2011	$27,467	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 77.99 percent funded. The actuarial accrued liability for benefits was 0.39 million, and the actuarial value of assets was $0.30 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.08 million. The covered payroll (annual payroll of active employees covered by the plan) $0.23 million, and the ratio of the UAAL to the covered payroll was 36.87 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

FAYETTE COUNTY 911
89930

Plan Description

Employees of FAYETTE COUNTY 911 are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as FAYETTE COUNTY 911 participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

FAYETTE COUNTY 911 requires employees to contribute 5.0 percent of earnable compensation.

FAYETTE COUNTY 911 is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.13% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for FAYETTE COUNTY 911 is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, FAYETTE COUNTY 911's annual pension cost of $5,734 to TCRS was equal to FAYETTE COUNTY 911's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. FAYETTE COUNTY 911's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 11 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

COOPERTOWN, CITY OF
89940

Plan Description

Employees of COOPERTOWN, CITY OF are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as COOPERTOWN, CITY OF participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

COOPERTOWN, CITY OF withdrew from TCRS effective July 1, 2008. Employees hired after the date of withdrawal are not eligible to participate in TCRS. Employees active as of the withdrawal date will continue to accrue salary and service credit in TCRS. The employer remains responsible for the pension liability for employees that were active as of the withdrawal date and for retirees of the employer.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

COOPERTOWN, CITY OF requires employees to contribute 5.0 percent of earnable compensation.

COOPERTOWN, CITY OF is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 0.00% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for COOPERTOWN, CITY OF is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, COOPERTOWN, CITY OF's annual pension cost of $0 to TCRS was equal to COOPERTOWN, CITY OF's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), and (d) projected 3.5 percent annual increase in the Social Security wage base. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. COOPERTOWN, CITY OF's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 1 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CARTER COUNTY TOMORROW
89990

Plan Description

Employees of CARTER COUNTY TOMORROW are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as CARTER COUNTY TOMORROW participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

CARTER COUNTY TOMORROW requires employees to contribute 5.0 percent of earnable compensation.

CARTER COUNTY TOMORROW is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2013 was 9.13% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for CARTER COUNTY TOMORROW is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2013, CARTER COUNTY TOMORROW's annual pension cost of $7,395 to TCRS was equal to CARTER COUNTY TOMORROW's required and actual contributions. The required contribution was determined as part of the July 1, 2011 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected 3.0 percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected post retirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. CARTER COUNTY TOMORROW's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011 was 18 years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

CARTER COUNTY TOMORROW 89990

Trend Information

Fiscal Year Ending	Annual Pension Cost(APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	$7,395	100.00%	$0.00
June 30, 2012	$6,377	100.00%	$0.00
June 30, 2011	$5,878	100.00%	$0.00

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 30.68 percent funded. The actuarial accrued liability for benefits was 0.08 million, and the actuarial value of assets was $0.02 million, resulting in an unfunded actuarial accrued liability (UAAL) of $0.05 million. The covered payroll (annual payroll of active employees covered by the plan) $0.07 million, and the ratio of the UAAL to the covered payroll was 77.40 percent.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

(Dollar amounts in thousands)

Actuarial Valuation Date	Actuarial Value of Plan Assets (a)	Actuarial Accrued Liability (AAL) -Entry Age (b)	Unfunded AAL (UAAL) (b) - (a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
July 1, 2011	$24	$77	$54	30.68%	$69	77.40%
