

Tennessee Department of Treasury

The Tennessee Department of Treasury is seeking an experienced CPA with the ability to serve as the lead accountant on teams tasked with developing and implementing new systems for the Department's unique needs. Treasury oversees numerous state programs and each requires a specific system for their daily operations. This position will be responsible for learning and performing each program's daily operations and workflows in order to collaborate with the information systems division, providing feedback and guidance throughout the design, testing, and implementation of these new systems.

Primary Responsibilities

- Learn and perform current daily operations and workflows of numerous state programs, i.e. journal entry, reconciliation, accounts payable, etc.
- Assist with the development and implementation of new system software.
- Work closely with system programmers to provide guidance in accounting needs.
- Assist in testing and development of user interface.
- Lead sessions designed to teach coworkers the functionality of new systems.
- Other duties as assigned.

Benefits

- ✓ Health, Dental, Vision, and Life Insurance
- ✓ Company 401(k) program
- ✓ State of Tennessee Pension (TCRS)
- ✓ Annual and Sick Leave
- ✓ MTA Transit
- ✓ Paid Holidays
- ✓ Consistent hours providing for excellent work life balance.

Job Requirements

1. Graduate with a bachelor's degree in accounting
2. CPA designation required
3. 2+ years of work experience in accounting and/or information systems
4. Experience in governmental accounting is preferred
5. Knowledge/Expertise of computers and systems development
6. Strong communication skills
7. Ability to lead project teams
8. Criminal background check required
